To
Dr. Henry Torsey Fernald

Scientist
Teacher
Friend

This book is affectionately dedicated
by the class of
1924

Dr. Henry Torsey Fernald

DR. FERNALD is a descendant of an old New England family, which was established in this country by Dr. Reginald Fernald, the physician of the Piscataqua Colony, founded in Portsmouth, New Hampshire, in 1630. Dr. Reginald Fernald's descendants settled in Maine, where the Fernald family played an important rôle in the development of the State, to which it has given a governor, and numerous statesmen, clergymen, college presidents, educators, and other citizens of ability and distinction. Of such a lineage one may well be proud, and it is a pleasure to record that Dr. H. T. Fernald has measured up to the high standard and traditions of his family in every way.

Dr. Fernald was born in Litchfield, Maine, on the seventeenth of April, 1866. His early childhood was spent in the town of Houlton, Maine, where his surroundings were exceptionally attractive for the study of natural history; and the foundation of his keenness of observation of insects in the field, and his skill and enthusiasm as a collector were laid in his boyhood expeditions to river and woods, in the pursuit of his favorite pastime.

As a student at the State College at Orono, Maine (from which he received the degree of Bachelor of Science in 1885), he maintained his keen interest in the study of Entomology, and his first research problem — the thesis which brought him the degree of Master of Science from the State College in 1888 — dealt with insect histology.

In 1885 he began his graduate work at Wesleyan, but finding the facilities for research in his chosen field unsatisfactory there, he transferred to the Johns Hopkins University in 1886, and after three years of study in that institution, interrupted by a year of study as Research Fellow in the tropical laboratory established by the University in the Bahama Islands, he received the degree of Doctor of Philosophy from the Johns Hopkins University in 1890. The subject of his Doctor's thesis was the "Relationships of Arthropods," and true to his lifelong interest in insects, he laid particular stress upon the entomological phase of the subject in this investigation, which is one of the earliest and most important studies of the origin and relationships of insects.

After leaving the Johns Hopkins University, Dr. Fernald was Professor of Zoölogy in the Pennsylvania State College from 1890 to 1899, and during the last year and a half of this period, he also served as State Zoölogist — a position for which he was exceptionally well fitted through his broad knowledge and training.

Since 1899, Dr. Fernald has been connected with the Massachusetts Agricultural College in various capacities, such as Professor of Entomology, State Nursery Inspector, Entomologist of the Experiment Station, etc.; and, as Head of the Division of Science, Head of the Department of Entomology, Chairman of various committees, etc., his efforts and influence have always been exerted to the utmost

1924 INDEX

toward the maintenance of a high standard of scholarship and training in the scientific departments of this institution.

Because of his able and enthusiastic leadership in the struggle to maintain the high ideals of a broad training and high standard of scholarship in the four-year courses of our college, when the commission for investigating the possibilities of developing higher education in Massachusetts visited M. A. C., Dr. Fernald was chosen by President Butterfield to present to the committee a statement of what this College is prepared to do in the way of education outside of applied agriculture, in case the commission should recommend the utilization of these facilities. His clear-cut, logical and convincing presentation of the facts and arguments in favor of the establishing of a state university here, created a very favorable impression among the members of the commission, and if our college should be so fortunate as to receive the support of the Legislature in developing into a state university, no small share of the credit for the achievement should be given to Dr. Fernald.

Dr. Fernald's professional reputation has been founded largely upon the work which he has carried out during the period of his association with this college, and on this account M. A. C. has always occupied the highest place in his interest and affection, as is clearly demonstrated by his sending his only son to college here. Of the work he has done here, his treatises on the Digger Wasps of North America (which are standard works of reference in this subject), are perhaps the best known to his fellow entomologists, although his *Textbook of Applied Entomology*, which represents the culmination of his researches in the field of Economic Entomology, will doubtless be more widely known among students at large, since it is now used as a textbook in many colleges and universities of the country, and is generally acknowledged to be the best book available for the purpose.

Although a man's publications make him known to the world at large, his ideals, character, personality and ability as a teacher have far more weight among his students and those associated with him personally; and we are more than fortunate in having as Head of the Department of Entomology a man of Dr. Fernald's sterling worth, breadth of vision, and sympathetic spirit of helpfulness in his relations with those associated with him here. Dr. Fernald's exceptional ability as a teacher, his poise, facility of expression, and ability to impart his ideas clearly, forcefully, and concisely, have made his courses among the most popular electives on the campus. His unswerving loyalty and untiring efforts to maintain a high standard of scholarship at M. A. C. have earned for him the deep gratitude of all who have the best interests of our college at heart; and his scholarly attainments, broad vision, high ideals, and sympathetic attitude toward the work of the members of his department, have endeared him to those of us who have been so fortunate as to be associated with him here. That we shall continue to keep in positions of influence and authority, men of his caliber, vision and devotion to high ideals is the earnest hope of every well-wisher of M. A. C.

A.B., Clark University, 1905. A.M., Clark University, 1906. Ph.D., Clark University, 1915. Fellow of Physics, Clark University, 1905-07. University of Berlin, 1907-08. Instructor in Physics, Williams College, 1909-12. Instructor in Physics, Smith College, 1912-14. Acting Professor in Physics, University of North Carolina, 1915-16. Assistant Professor of Physics, University of Michigan, 1916-17. Lieutenant U. S. N., 1917-19. Assistant Professor of Physics, Clark University, 1919-20. Professor of Physics, M. A. C., 1920-.

Roy D. Harris, B.Sc., *Assistant Professor of Vegetable Gardening.*

B.Sc., Middlebury College, 1917. Graduate Student, M. A. C., 1919-20. Instructor in Vegetable Gardening, M. A. C., 1920-. K. D. P.

Arthur K. Harrison, *Assistant Professor of Landscape Gardening.*

Born 1872. With Warren H. Manning, Landscape Designer, Boston, acting at various times in charge of the Surveying and Engineering Departments, and of the Drafting Rooms 1898-11. Instructor in Landscape Gardening, M. A. C., 1911-13. Assistant Professor of Landscape Gardening, M. A. C., 1913-.

William R. Hart, M.A., L.B., *Professor of Agricultural Education and Head of the Department.*

B.L., Iowa State Law School, 1880. A.B., University of Nebraska, 1900. Department of Psychology and Education in the Nebraska State Normal School at Peru, Nebraska, 1901-07. Professor of Agricultural Education, M. A. C., 1907-.

Philip B. Hasbrouck, B.Sc., *Professor and Head of the Department of Physics and Registrar of the College.*

Born 1870. B.Sc., Rutgers College, 1893. Assistant Professor of Mathematics, M. A. C., 1895-02. Associate Professor of Mathematics, 1902-11. Registrar of the College, 1905-. Professor of Physics, M. A. C., 1911-. Member of American Association of Collegiate Registrars. X Ψ, Θ N E, Φ K Φ.

Curry S. Hicks, B.Pd., *Professor of Physical Education and Hygiene, and Head of the Department.*

Born 1885. Michigan Agricultural College, 1902-03. B.Pd., Michigan State Normal College, 1909. Assistant in Physical Education, Michigan State Normal College, 1908-09. Edward Hitchcock Fellow in Physical Education, Amherst, 1909-10. Director of Athletics, Michigan State Normal College, 1910-11. Assistant Professor of Physical Education and Hygiene, M. A. C., 1911-14; Associate Professor, 1914-16; Professor, 1916-.

1924 INDEX

Mrs. Curry S. Hicks, *Instructor in Physical Education for Women.*

Graduate of Michigan State Normal College, 1909.

Arao Itano, Ph.D., *Assistant Professor of Microbiology.*

Born 1888. B.Sc., Michigan Agricultural College, 1913. Ph.D., M. A. C., 1916. Assistant Chemist, Michigan Agricultural Experiment Station, 1912-13. Assistant Bacteriologist, Michigan Agricultural College, 1912-13. Graduate Assistant, M. A. C., 1913-14. Student Copenhagen, Denmark, 1914-15. Assistant in Microbiology, M. A. C., 1915-16. Instructor in Microbiology, M. A. C., 1916. General Investigator at Woods Hole, 1916. Assistant Professor in Microbiology, M. A. C., 1917-. American Association for the Advancement of Science, Society of American Bacteriologists. Φ K Φ .

Henry F. Judkins, B.Sc., *Professor of Dairying and Acting Head of the Department.*

Born 1890. B.Sc., New Hampshire State College, 1911. Instructor in Dairying, New Hampshire State College, 1911-12. Assistant State Gypsy Moth Agent, New Hampshire, 1912. Instructor in Dairying, Connecticut Agricultural College, 1913-16. Associate Professor Dairying, Connecticut Agricultural College, 1916-18. Associate Professor of Dairying, Iowa State College, 1918. Associate Professor of Dairying, M. A. C., 1919-20. Professor of Dairying and Acting Head of the Department, 1920.

Arthur N. Julian, A.B., *Assistant Professor of German.*

A.B., Northwestern University, 1907. Instructor of German, Elgin Academy, Elgin, Ill., 1907-10. Travelled in Germany and Student at Berlin University, 1910-11. Instructor in German, M. A. C., 1911-19. Assistant Professor of German, M. A. C., 1919-. Φ B K, Φ K Φ .

Charles W. Kemp, B.Sc., *Field Professor in Teacher Training.*

B.Sc., New Hampshire State College of Agriculture and the Mechanic Arts, 1911. Instructor in Agriculture, Proctor Academy, Andover, N. H., 1911-12. Submaster and Instructor of Agriculture, Colebrook Academy, N. H., 1912-14. Principal and Instructor in Agriculture, Colebrook Academy, N. H., 1914-15. Instructor in Agronomy, Theodore N. Vail School, Lyndonville, Vt., 1915-16. Director, Weymouth Branch of the Norfolk County Agricultural School, 1916-18. Farm Manager and in charge of Agricultural Teaching, Riggs School, Lakeville, Conn., 1918-19. Director of the Weymouth Branch of the Norfolk County Agricultural School, 1919-22. Field Professor in Teacher Training, M. A. C., 1922-. A Z, Θ X.

Herman Kobbe, Major, Cavalry, U. S. A., *Professor of Military Science and Tactics.*

Born 1883. Cadet, 1904. Second Lieutenant, 1st Cavalry, 1908. First Lieutenant, 1st Cavalry, 1915. Captain, 25th Cavalry, 1917. Major, January 1918. Transferred to 13th Cavalry, 1919. Assistant Professor of Military Science and Tactics, M. A. C., 1921. Professor of Military Science and Tactics, M. A. C., 1922.

Marshall O. Lamphear, B.Sc., *Instructor in Agronomy.*

Born 1894. B.Sc., M. A. C., 1918. Instructor in Agriculture, Mount Hermon, 1919. Instructor in Agronomy, M. A. C., 1921-. K Σ , Φ K Φ .

John B. Lentz, A.B., V.M.D., *Assistant Professor of Veterinary Science and College Veterinarian.*

Born 1887. A.B., Franklin and Marshall College, 1908. D. M. D., School of Veterinary Medicine, University of Pennsylvania, 1914. Teaching and Coaching at Franklin and Marshall Academy, 1908-11. Assistant Professor of Veterinary Science and College Veterinarian, M. A. C., 1922-. Φ Σ K.

1924 INDEX

Edward M. Lewis, A.M., *Professor of Languages and Literature and Acting Head of the Division of Humanities.*

Joseph B. Lindsey, Ph.D., *Goessmann Professor of Agricultural Chemistry and Head of the Department.*

Born 1862. B.Sc., M. A. C., 1883. Chemist, Massachusetts State Agricultural Experiment Station, 1883-85. Chemist, L.B. Darling Fertilizer Co., Pawtucket, R. I., 1885-89. Student at the University of Göttingen, 1889-92. M.A., Ph.D., University of Göttingen, 1891. Student at Zurich Polytechnic Institute, 1892. Associate Chemist, Massachusetts State Experiment Station, 1892-95. In charge of the Department of Feeds and Feeding, Hatch Experiment Station, 1895-97. Head of the Department of Chemistry and Goessmann Professor of Chemistry, M. A. C., 1911-. Member of the American Chemical Society. Fellow in the American Association for the Advancement of Science. A Σ Φ , Φ K Φ .

William L. Machmer, M.A., *Professor of Mathematics and Assistant Dean.*

Born 1883. Graduate of Keystone State Normal School, 1901. Teacher in Public Schools, 1901-04. A.B., Franklin and Marshall College, 1907. Head of the Department of Mathematics, Franklin and Marshall Academy, 1907-11. A.M., Franklin and Marshall College, 1911. Instructor in Mathematics, M. A. C., 1911-13. Assistant Professor of Mathematics, M. A. C., 1913-19. Federal Demonstration Agent in Marketing, 1918-19. Associate Professor of Mathematics, M. A. C., 1919-20. Professor of Mathematics and Assistant Dean, M. A. C., 1920-. Acting Dean, M. A. C., 1922-23. Φ B K, Φ K Φ , A E Φ .

Alexander A. Mackimmie, A.M., *Professor of French.*

Born 1878. A.B., Princeton University, 1906. Boudinot Fellow in Modern Languages, 1906-07. Instructor in French, Colchester Academy, Truro, Nova Scotia, 1906-08. Instructor in French and Spanish, M. A. C., 1908-11. Assistant Professor of French, M. A. C., 1911-15. A.M., Columbia University, 1914. Associate Professor of French, 1915-19; Professor of French, M. A. C., 1919-. Studied in Spain in 1922. Received the Diploma de Competencia Centro de Estudios Historicos, Madrid. K Γ Φ , Φ B K, Φ K Φ .

John J. Maginnis, B.Sc., *Instructor in Agricultural Economics.*

Born 1895. B.Sc., M. A. C., 1920. Instructor in Agricultural Economics, M. A. C., 1920-. A Σ Φ .

Charles E. Marshall, Ph.D., *Professor of Microbiology and Head of the Department.*

Born 1866. Ph.D., University of Michigan, 1895. Assistant Bacteriologist, Michigan Agricultural College, 1893-96. Jorgensen's Laboratory, Copenhagen, 1898. Professor of Bacteriology and Hygiene, Michigan Agricultural College, 1902-12. Pasteur's Institute, Paris, and Ostertag's Laboratory, Berlin, 1902. Koch's Laboratory, Berlin, 1912. Scientific and Vice Director, Michigan Experiment Station, 1908-12. Director of the Graduate School and Professor of Microbiology, M. A. C., 1912-. A Z, Φ K Φ .

Frederick A. McLaughlin, B.Sc., *Assistant Professor of Botany.*

Born 1888. B.Sc., M. A. C., 1911. Graduate Work, M. A. C., 1911-15. Assistant in Botany, M. A. C., 1914. Student at Marine Biological Laboratory, Woods Hole, summer of 1914. Graduate Work, University of Chicago, 1916-17. Instructor in Botany, 1917-19; Assistant Professor in Botany, M. A. C., 1919-. K Σ .

1924 INDEX

Charles A. Michels, M.Sc., *Assistant Professor of Agronomy.*

Born 1884. B.Sc., North Dakota Agricultural College, 1909. M.Sc., University of Wisconsin, 1912. Graduate Assistant University of Wisconsin, 1909-12. Professor of Agriculture and Head of the Department, State Normal and Industrial School, South Dakota, 1912-16. Director of the Extension Service, South Dakota, 1916. Director of the Extension Service, Montana, 1917-18. Assistant Cooperative Agent, North Dakota, 1920. Assistant Professor of Agronomy, M. A. C., 1921-.

Frank C. Moore, A.B., *Assistant Professor of Mathematics.*

A.B., Dartmouth College, 1902. Graduate Assistant, Dartmouth College, 1902-03. Instructor in Mathematics, Dartmouth, 1906-09. Assistant Professor of Mathematics, New Hampshire State, 1909-17. Assistant Professor of Mathematics, M. A. C., 1917-. X Y.

Richard T. Muller, M.Sc., *Assistant Professor of Floriculture.*

Born 1893. B.Sc., Cornell, 1916. Instructor in Horticulture, University of Maine, 1916-18. Assistant Professor of Horticulture, University of Maine, 1918. In charge of Horticulture, Hampton Institute, 1918. M.Sc., U. of Maine, 1921. Assistant Professor of Floriculture, M. A. C., 1921-. Φ Γ Δ, Φ K Φ.

John B. Newlon, *Instructor in Rural Engineering.*

Born 1884. Instructor in Forge Work, M. A. C., 1919-. Special at Massachusetts Institute of Technology, 1921.

Joseph F. Novitski, B.Sc., *Instructor in Rural Sociology.*

Born 1884. Graduate of State Normal School, Oshkosh, Wisconsin. B.Sc., M. A. C. County Superintendent of Schools, Brown County, Wisconsin, 1909-15. Teacher, State Normal School, (Summer), Oconto, Wisconsin, 1911-15. Assistant in Rural Sociology, M. A. C., 1916-20. Instructor in Rural Sociology, M. A. C., 1920-. Training Assistant, Co-ordinator, U. S. Veteran's Bureau at M. A. C., 1920.

A. Vincent Osmun, M.Sc., *Professor of Botany and Head of the Department.*

Born 1880. B.Agr., Connecticut Agricultural College, 1900. Assistant, Storrs Agricultural Experiment Station, 1900-02. B.Sc., M. A. C., 1903; M.Sc., M. A. C., 1905. Assistant in Botany, 1903-05. Instructor in Botany, 1905-07. Assistant Professor of Botany, M. A. C., 1914-16. Acting Head of the Department of Botany, M. A. C. and Experiment Station, 1914-16. Professor of Botany and Head of the Department, M. A. C., 1916-. Q. T. V., Φ K Φ.

John E. Ostrander, A.M., C.E., *Professor of Mathematics and Head of the Department.*

Born 1865. B.A. and C.E., Union College, 1886. Assistant on Sewer Construction, West Troy, New York, 1886. Assistant on Construction, Chicago, St. Paul, and Kansas City Railway, 1887. Draughtsman with Phoenix Bridge Company, 1887. A.M., Union College, 1889. Assistant in Engineering Departments, New York State Canals, 1888-91. Instructor in Civil Engineering, Lehigh University, 1891-92. Engineering Contractor for Alton Bridge Company, summer of 1892. Professor of Civil Engineering and Mechanic Arts, University of Idaho, 1892-97. Professor of Mathematics and Civil Engineering, and Meteorologist at Experiment Station, M. A. C., 1897-. Member of Committee 6, International Commission on Teaching Mathematics, 1900-11. Φ K Φ.

Laurence H. Parker, A.B., *Professor of Citizenship and Acting Head of the Department of Economics and Sociology.*

Born 1878. A.B., Tufts College. Graduate Work in History and Mathematics, Wesleyan, Massachusetts Institute of Technology, University of Grenoble, and University of Paris. Principal West Hartford High School, 1906-07. Instructor and Associate Professor, Amherst College, 1907-19. Instructor in Mathematics, M. A. C., 1919-20. Assistant Professor of Citizenship, M. A. C., 1920-. Acting Head of the Department of Economics and Sociology, M. A. C., 1920-. Δ Y, Φ K Φ.

Director, School of Educational Agriculture, State Normal School, Rivers Falls, Wisc., 1912-19. State Supervisor, Vocational Agricultural Education for Wisconsin, 1917-19. Professor of Agricultural Education, M. A. C., 1919-. Σ Φ E.

Charles Wellington, Ph.D., *Professor of Chemistry.*

Born 1853. B.Sc., M. A. C., 1873. Graduate Student in Chemistry, M. A. C., 1873-76. Assistant Chemist, U. S. D. A., 1876. Student, University of Virginia, 1876-77. First Assistant Chemist, U. S. D. A., 1877-82. Ph.D., University of Gottingen, 1885. Associate Professor of Chemistry, M. A. C., 1885-1907. Professor of Chemistry, M. A. C., 1907-. K Σ , Φ K Φ .

Themistocles G. Yaxis, B.Sc., *Assistant Professor of Dairying.*

B.Sc., New Hampshire State College, 1914. M.Sc., Cornell University, 1917. Inspector of Butter, U. S. N., 1917. Instructor of Animal Husbandry, University of Kentucky, 1917-18. Junior Professor in charge of Dairying, Georgia State College, 1918-19. Assistant Professor of Dairying, M. A. C., 1920-. K Σ .

James Breckenridge Paige

1861-1922

JAMES BRECKENRIDGE PAIGE was born in Prescott, December 28, 1861, the youngest of a family of ten. On his father's side his great-grandfather was one of the Minute-men at Lexington, on his mother's his great-grandfather served in the Revolutionary army for seven years and died at Valley Forge. When the boy was five years old, the family moved to Amherst and remained seven years. Here he got his elementary schooling. Returning to the farm at Prescott, he attended the district school, and there prepared for college. He entered M. A. C. with the class of 1882, and from that time till his death he was intimately connected with the life of the college.

As a student he entered into the life of the campus with zest. He was a member of the Q. T. V. fraternity. In all the years since he has been a moving spirit in the fraternity, and in later years its most influential member. The life of the campus was then much closer-knit than now. The majority of the students lived in the dormitories, the number of teachers was small, and relations between students and teachers were very intimate. Boyish pranks were much in evidence, and "Jim" was never the hindmost in them. College athletics were strong though in their infancy. In junior and senior years Dr. Paige played in the class baseball and the "varsity" football teams.

After graduation he returned to the farm where, with his father, he continued farming for two years. He married Ada Russell. They had one daughter, Beryl. While on the farm he was continually called in by neighbors to care for sick or injured animals, and he decided to seek training along that line at Montreal School of Veterinary Science, the school with the highest reputation in America at that time. He graduated in 1888. Subsequently the Montreal School was amalgamated with McGill University, and the graduates of the earlier school received degrees from both institutions.

He practiced two years in Northampton and came to the college as a teacher in July, 1890. In the summer of 1891 he again went to Montreal where he studied Bacteriology under Wyatt Johnson, through whom he became acquainted with the work of Teodor Kitt of Munich. In 1895-6 he studied under the latter and also visited the great veterinary schools of Germany, Austria and France.

Returning to the college, his life thereafter is a very active one. He built up an important department. He personally superintended the building of the Veterinary Laboratory and Hospital, and also that of the next large building, Draper Hall, so that with his efforts and those of President Goodell, begins the building development of the college and has continued to the present. He served two

1924 INDEX

terms as representative in the Massachusetts House of Representatives. In 1911 he was acting Dean during a protracted illness of Dean Mills.

While he did not publish a great deal, he did most important scientific work along several lines. He was the pioneer in this state in the use of tuberculin. Between 1892 and 1895 he published articles on tuberculosis and its eradication. He was also a pioneer in the treatment of black-leg in cattle and of hog-cholera. Perhaps his most important piece of scientific investigation was done in collaboration with C. G. Paige and L. Frothingham on a disease in horses — epizootic lymphagitis — in which he was successful in isolating and propagating the specific germ of the disease. He was an authority on Animal Hygiene, particularly on Stable Sanitation.

As a lecturer for Farmers' Institutes he was greatly in demand. His shrewd knowledge of human nature, his dry Yankee humor, and his faculty for drawing illustrations from his wide experience made even his technical lectures a delight to his hearers. In addition to his lectures on Horses and Cattle, he frequently lectured on Poultry and Bees. When the first Bee Courses were given at the college in 1903 by his great friend, Jim Wood of Prescott, it was in his apiary in his backyard that the students got their practice.

He was Secretary of the Alumni Association for twelve years. Probably no teacher on the campus knew the alumni body as well as he. He initiated the *College and Alumni News* in 1903, and edited the first three numbers.

As student, alumnus, teacher, investigator, administrator, he spent his life for M. A. C. We knew him best as a teacher. In this he made his best and finest contribution to his Alma Mater. In the class-room he was a great deal more than an authority in the subject of which he was teaching. He had a great many talents but the greatest was his ability to read human character. A great asset to him in his technical work was his mechanical ability. He was very skilful with his hands. In the basement of his laboratory and in his home, he had workshops where he turned out all sorts of articles in wood and metal. He was especially fond in these later years of collecting and restoring antique furniture. In his last illness he learned the art of modelling in clay and produced some pieces exquisite in form and color.

He died October 5, 1922.

We miss most his great heart. He made friends, men, women, children, animals, even the plants. Only his intimates realized how keenly he felt. He was always self-restrained, and presented a calm front. In his work he seemed leisurely, but few men accomplished so much. He loved to see this same self-control in his students.

Every student of his has his story of some principle driven home so that he can never forget it. The college has lost a great teacher who taught by precept and example.

A. ANDERSON MACKIMMIE

Calendar

1922

September 20-23, Wednesday-Saturday — Entrance Examinations.
September 27, Wednesday, 1.30 P. M. — Fall term begins; Assembly.
October 12, Thursday — Holiday — Columbus Day.
November 29-December 4, Wednesday-Monday — Thanksgiving recess.
December 22, Friday — Fall term ends.

1923

January 2, Tuesday — Winter term begins.
February 22, Thursday — Holiday — Washington's Birthday.
March 23, Friday — Winter term ends.
March 26, Monday — Spring term begins.
April 19, Thursday — Holiday — Patriots' Day.
May 30, Wednesday — Holiday — Memorial Day.
June 9-11, Saturday-Monday — Commencement.
June 14-16, Thursday-Saturday — Entrance Examinations.
September 19-22, Wednesday-Saturday — Entrance Examinations.
September 26, Wednesday — Fall term begins.

ALUMNI

1924 INDEX

Aggie Men in "Who's Who" 1922-1923

- ADAMS, RICHARD LABAN 3 Park Place, Oakland, Calif.
Agriculturist; 1905; M.S., U. of Calif., 1910. Author of books on farm management. Prof. of Farm Management, U. of Calif. since 1919.
- ALLEN, EDWIN WEST 1923 Biltmore St., Washington, D. C.
Editor; 1885; Ph.D., U. of Gottingen, 1890; Ed.-in-chief Expt. Sta. Record, U. S. D. A. Author of papers of agrl. chem. and on work of Expt. Stas.
- AYRES, WINFIELD Stamford, Conn.
Surgeon; 1886; M.D., Bellevue Hosp. Med. Coll., 1893. Now genito-urinary surgeon to N. Y. Radium Sanatorium. Member N. Y. med. societies.
- BOND, HENRY Brattleboro, Vt.
Retired; 1876; formerly Purchasing Agt. Am. Waltham Watch Co., asst. mgr. Pierce Plant, Am. Rad. Co.; now director Am. Rad. Co.
- BROOKS, WILLIAM PENN Amherst, Mass.
Agriculturist; 1875; Ph.D., Halle, 1897. Been prof. agr. and bot., M. A. C. Imperial Coll. of Agr., Japan, 1886-87; rec. hon. degree Nogaku Hakushi, Japan Dept. Edn. Consulting agric. since 1918.
- BURGESS, ALBERT FRANKLIN Melrose Highlands, Mass.
Entomologist; 1895; M.S., 1897; pub. annual reports and bulls. on nursery and orchard inspection, sci. arts. on ent. Phi Sigma Kappa.
- COOLEY, ROBERT ALLEN 42 Bozeman, Mont.
Entomologist; 1895; prof. ent. and zoo., Mont. Coll. and State Ent.
- CUTTER, JOHN ASHBURTON 120 Broadway, N. Y.
Physician; 1882; M.D. Albany Med. Coll., 1886. General med. practise in New York since 1886; spec. in chronic complaints. Phi Sigma Kappa.
- FELT, CHARLES FREDERICK W. 5344 Hyde Park Boul., Chicago, Ill.
Civil Eng.; 1886; been levelman, axman, rodman, bridge eng., transitman, and chief engineer of various railroads.
- FELT, EPHRAIM PORTER State Museum, Albany, N. Y.
Entomologist; 1891; State Ent. of N. Y. since Dec. 1898. Pub. an extended work on park and woodland insects; articles in hort. and sci. jours.
- FLETCHER, STEVENSON WHITCOMB State College, Pa.
Agriculturist; 1896; M.S., 1898; Ph.D. Cornell, 1900. Been prof. hort. and horticulturist of various agrl. colls. and expt. stas. Phi Kappa Phi.
- GILBERT, ARTHUR WITTER 48 Stone Rd., Belmont, Mass.
Agronomist; 1904; M.S. in Agr., Cornell, 1905; Ph.D., 1909. Com. Agr. Mass. since 1919. Author agrl. books. Phi Kappa Phi. Alpha Sigma Phi.

1924 INDEX

- GOLDTHWAIT, JOEL ERNEST 372 Marlboro St., Boston, Mass.
Surgeon; 1885; M.D., Harvard. 1890. Practising in Boston; also instructor
orthopaedic surgery, Harvard Med. Sch. Phi Beta Kappa.
- GREGG, JOHN WILLIAM Berkeley, Calif.
Landscape architecture; 1904. Prof. land. gard. and flor., U. of Calif.
since 1913. Pres. Park Commn., Berkeley. Alpha Sigma Phi.
- HALL, JOSIAH NEWHALL 1344 Elizabeth St., Denver, Col.
Physician; 1878; M.D., Harvard 1882. Practised med. in Denver since
1892. Contbr. to Am. med. journs. arts. on diseases of heart and lungs.
- HARTWELL, BURT LAWS Kingston, R. I.
Chemist; 1899; M.S. 1900; Ph.D., U. of Pa., 1903. Chemist, director and
agronomist, R. I. Expt. sta.; prof. chem. at Coll. Phi Kappa Phi.
- HALLIGAN, JAMES EDWARD John Wade & Sons, Inc., Memphis, Tenn.
Chemist; 1900. Referee on sugar products. Author books on agr., stock
feeding, fertility and fertilizers. Kappa Sigma.
- HEMENWAY, HERBERT DANIEL Holden, Mass.
Lecturer; 1895. Expert engaged in landscape community development
work and food production gardens since 1916. Author gard. books.
- HILLS, JOSEPH LAWRENCE Burlington, Vt.
College dean; 1881. Prof. agron., U. of Vt., since 1893. Dean Coll. of
Agr. since 1898. Author expt. sta. reports. Kappa Sigma.
- HOWE, CHARLES SUMNER 11125 Bellflower Rd., Cleveland, O.
College president; 1878; Ph.D., U. of Wooster, Chicago, 1887. LL.D.
Mt Union Coll., Ohio. Pres. Case Sch. Applied Sci. since 1903.
- LAMSON, GEORGE HERBERT, JR. Storrs, Conn.
Prof. zoology; 1903; C. A. C., 1902; M.S., Yale, 1905. Prof. zoo., C. A. C.
- LEWIS, CLAUDE ISAAC Masonic Bldg., Salem, Mass.
Horticulturist; 1902; M. S. A. Cornell, 1906. Asso. ed. Am. Fruit Grower.
Writer of several buls. on orchard econ., handling fruit, etc.
- LINDSEY, JOSEPH BRIDGEO Amherst, Mass.
Chemist; 1883; Ph.D., U. of Gottingen, 1891. Head dept. chem. and Goess-
mann prof. agrl. chem. at M. A. C. since 1911.
- MERRILL, FREDERICK AUGUSTUS Dept. Agr., Washington, D. C.
Author; 1889. Author several nature and geographical books.
- MONAHAN, ARTHUR COLEMAN Surg. General's Off., Washington, D. C.
Educational expert; 1900. Director bureau of edn. Nat. Catholic Welfare
Council since 1921. Lecturer on sch. admin. and edn.
- MORRILL, AUSTIN WINFIELD 382 W. Av. 53 Los Angeles, Calif.
Entomologist; 1900; Ph.D., 1903. Orig. fumigation tent. Phi Sigma Kappa.
- MYRICK, HERBERT Wilbraham, Mass.
Publisher, editor; 1882. Pres. Phelps Pub. Co. and of other pub. com-
panies. Reputed father Fed. Loan Act of 1916. Lecturer and author.

1924 INDEX

- NOYES, HENRY ALFRED 27 Cottage St., Westfield, N. Y.
Bacteriologist; 1912; M.S. 1914. In charge res. dept. Welch Grape Juice Co. Contbr. to prof. jours. on bacteriol. and chem. Phi Kappa Phi.
- PARMENTER, GEORGE FREEMAN Waterville, Maine
Chemist; 1900; M.A. 1903; Ph.D. Brown, 1903. Prof. chem. and head of dept. at Colby since 1904. Author Colby lab. expts. Phi Sigma Kappa.
- PLUMB, CHARLES SUMNER 1980 Indianola Ave., Columbus, O.
University professor; 1882; prof. an. hus., Ohio State Univ., since 1902. Author "Types and Breeds of Farm Animals" and other an. hus. books.
- STAPLES, HENRY FRANKLIN 3654 Somerton Rd., Cleveland, O.
Physician; 1893; M.D. Cleveland U. of Med. and Surg., 1896. M.D. in Cleveland since 1902. Alpha Sigma Phi.
- STOCKBRIDGE, HORACE EDWARD 116 E. Hunter St., Atlanta, Ga.
Agrl. Chemist; 1878; Ph.D., U. of Gottingen, 1884. Chief chem. Jap. Gov. 1887-89. Writer agrl. and sci. reports and arts. Kappa Sigma.
- STONE, GEORGE EDWARD Amherst, Mass.
Botanist; 1884; Ph.D., Leipzig, 1893. Formerly botanist Mass. Bd. Agr.
- TUCKERMAN, FREDERICK Amherst, Mass.
Anatomist; 1878; M.D., Harvard, 1882; A.M. Ph.D. Heidelberg, 1894. With others, Life of Chas. Anthony Goessmann, 1917. Papers on anatomy.
- WASHBURN, JOHN HOSEA Buckingham, Pa.
Agriculturist; 1878; studied at Brown; A.M., Ph.D., U. of Gottingen, 1889. Sec.-treas. Am. Assn. Agrl. Colls. and Expt. Stas.
- WEBB, JAMES HENRY County Court House, New Haven, Conn.
Judge; 1873; LL.B. (cum laude) Yale 1877; admitted to bar 1877. Judge Sup. Ct. of Conn. since 1914. Mem. bar Supreme Ct. of U. S.
- WELLINGTON, CHARLES Amherst, Mass.
Chemist; 1873; Ph.D., Gottingen, 1885. Prof. chem. M. A. C. since 1885.
- WHEELER, HOMER JAY Newton Center, Mass.
Agricultural chemist; 1883; A.M., Ph.D., U. of Gottingen, 1889. Now with Am. Agrl. Chem. Co. Author "Manures and Fertilizers."
- WHITE, EDWARD ALBERT The Parkway, Ithaca, N. Y.
Professor horticulture; 1895. Head Dept. Flor., Cornell, since 1913. Author "Principles of Floriculture." Phi Kappa Phi.
- WHITNEY, WILLIAM CHANNING 17 E. 24th St., Minneapolis, Minn.
Architect; 1872; architect in Minneapolis. Pres. Minn. Soc. Arch.
- WILDER, JOHN EMERY 1622 Forest Pl., Evanston, Ill.
Tanner, merchant; 1882. Vice-pres. of Wilder & Co., tanners and leather merchants. Trustee Beloit Coll. Dir. Nat. City Bank, Chicago.

West, Guy C.	B.Sc., Massachusetts Agricultural College
Willard, John D.	B.A., Amherst College
Worthley, Harlan N.	B.Sc., Massachusetts Agricultural College
Yount, Hubert W.	B.Sc.Agr., Ohio State University

The Passing of the Old Chemistry Building

(The old chemistry building was destroyed by fire on Sept. 6, 1922)

FIRE!

Early, that fall morning the people of Amherst were aroused by the clang of the fire bell. The staccato explosions of the fire truck, dashing up North Pleasant street, brought the curious to the windows.

"Where's the fire?"

"Looks as though it might be near the Aggies."

"It is! See the smoke!"

"Wonder what building. Let's see."

So said the curious. Some went back to bed. Others arrived at our campus in time to see the old chemistry building belching smoke and flames. They saw the fire department fighting the fire as best they could with a limited water supply. Disheveled men ran up and down ladders, frantically striving to rescue all they might of valuable books and records and apparatus. Practically the whole chemistry department was there, working with the firemen to bring from the flames whatever could be saved. The books of the library, some materials from the offices and some apparatus from the cellar were safely brought out. Before the ravages of the destroyer were checked, all of the west wing and the top two stories of the main part were gone. The origin of the fire is unknown. It is thought that nitric acid, spilled on the old, dry wood of the building started the conflagration. The loss of the building itself was unimportant, it probably would have been torn down anyway. Some valuable equipment, valued at about thirteen thousand dollars or so, was licked up by the hungry flames. Materially it was no great loss. Many of us were glad to be rid of this "stench obscene," this "barn," this "relic of the past" that was disfiguring our beautiful campus. Many a student heart is gladdened by the thought that no more will he have to climb the worn and rickety stairs to stifle in the accumulated smells of the years. Probably the old building *had* outlived its usefulness, but to the lover of Old Aggie's history and traditions there was a hint of tragedy in that violent end.

What was lost in that crackling, hissing, flaming hell? Was it good American dollars, in the shape of costly equipment? Was it the weather-worn and seamed wood of the building? No, the loss was not material. It was more like the burial of a dear old friend who had lived with and helped us through days of adversity, of whose help we were no longer in need, with whose plainness and decrepitude we were frankly out of patience. But when he had gone — an aching emptiness in our hearts as we viewed his grave. So it was with the "old barn." Its grave is marked

1924 INDEX

by granite foundations. Its spirit can only live in our hearts. In our imaginations those old, worn stairways that made such good fuel still echo to the determined tread of the men who made known the name of M. A. C. throughout the world. We cannot help thinking of the earliest days of our college when the renowned "Faculty of Four" and their friends were struggling against opposition and ridicule from all sides, struggling that our dear Alma Mater might be what she is today. And the old structure, now gone, played an all-important part in that struggle. Could there be a more fitting time than now to look back upon our early history, now that one of the reminders of that history is lost?

It was before the Civil War that the idea of a college whose purpose would be the teaching of Agriculture in Massachusetts was conceived. In 1848, there was some interest in a private institute to be called the "Massachusetts Agricultural Institute." The next year Hon. Marshal P. Wilder (for whom Wilder Hall is named) delivered an address on "Agricultural Education." This address started the movement that finally resulted in the establishment of the Massachusetts Agricultural College. During President Lincoln's administration, in 1862, a bill was passed giving to each state of the Union a portion of government land which should be donated to the endowment of a college to teach "such branches of learning as are related to agriculture and the mechanic arts." After much discussion and indecision, Amherst was chosen as the site of the Massachusetts College. This college was opened to the first class of forty-seven members on October 17th, 1867. The faculty then consisted of four men, that "Faculty of Four" which won such renown. This faculty was composed of Levi Stockbridge, President Clark, Ebenezer Snell, (later replaced by Dr. Charles A. Goessman), and Henry H. Goodell. The History of M. A. C. written by L. B. Caswell says, "The buildings that were erected when the first students appeared upon the college premises were: the south dormitory; a boarding house, on the north side of the ravine; a *Chemical laboratory* which presented a barn-like appearance and a part of which was used at first as a gymnasium, was fifty-seven by forty-six feet and two stories in height." Here we first see mention of the chemistry building. Next year, 1868, when Dr. Charles A. Goessman came to assume the duties of professor of chemistry, the original building received an addition and was called "College Hall." From the same historian we read: "It is a wooden structure, sixty by ninety-seven feet and when first erected was occupied as follows: in the first story was a chapel sixty by forty feet, and four rooms occupied by students in practical chemistry; in the second story was a hall for drawing, also used as a recitation and lecture room by the professor of mathematics and engineering, a chemical lecture room, office and the private laboratory and apparatus room of the professor of chemistry; in the third story was the military drill hall and armory . . . The old chemical laboratory was incorporated in this new edifice." There it was, much as we knew it yesterday. At first not entirely devoted to chemistry, this wooden structure housed many of the activities of the college. Names and events dear to the hearts of old alumni were

1924 INDEX

irrevocably bound up with that building. But the history of the old chemical building is the great history of our college, and space is limited, so we must pass to the present.

Today the department of chemistry is scattered around the campus. Working under serious handicaps, it is awaiting the completion of the new building near Draper Hall. Tomorrow the department will be in that splendid new Goessman Building. The new home will have the latest and most improved equipment. Capacious laboratories and lecture rooms will probably attract more students who are interested in chemistry. In a few years a new generation of students will probably rarely stop to think that there ever was any other chemistry laboratory. New professors will teach facts and theories far advanced from ours, even as ours have advanced from those of 1867. But in devotion to the Alma Mater and to the cause of education and learning, there could be no advance over those men of the early days who taught and were taught, those men on whose life-works the fame of M. A. C. is founded. The new generation of faculty and students may well be proud of their building, but if they are to keep alive the spirit of Old Aggie, they must never forget the old. The name of "Goessman" over the entrance should help to keep alive remembrances of the past. For forty years this leader in the field of science and education was head of the chemistry department. For all the years that he was in Amherst, he was an active participant in the affairs of the college, and a man well loved by all with whom he came in contact. No other name could serve as his to keep ever fresh in future minds the accomplishments and examples of Old Aggie.

The old building is gone. Its usefulness outlived, its ugliness despised, its spirit loved. Let us stop in the rush of progress to pay it the tribute that is its due. As we pass its site let us think of the traditions, of the sacrifices, of the grandeur, of the spirit of self-sacrificing service to humanity through which that building lived.

The Class History

IN the early fall of 1919 we, as unsophisticated Freshman, came to Aggie's campus and immediately started forth to introduce ourselves. We did, of course, go through the pond but the class of '22 was kept on the alert throughout the year, and more than once felt strongly our presence. The freshman athletic teams gave glory to the class and the show was such a success that no freshman class since has dared attempt to entertain the college for a whole evening.

With a slight sense of dignity we assumed the responsibilities of the sophomore year and tendered our respects to the incoming class. With greeting similar to that we ourselves had received, the newcomers stirred up the muddy pond. Physics, Zoölogy, and Botany played us hard the fall term as did Aggie Ec in the winter, but we managed to keep our heads above water through them all. The celebration of the semi-centennial anniversary of M. A. C. took place in June, combined with the commencement exercises of our brother class. The Memorial Building dedicated at this time was the scene of the Soph-Senior Hop, the first college event to take place there.

Junior year came and went with the usual happenings. Aggie was left in Dean Lewis's care while President Butterfield studied agricultural conditions in China.

This year we were the onlookers of the Freshman-Sophomore events and we tried to study and practice the behavior of the Seniors, to what success we ourselves cannot judge.

Now, Seniors, we will all too soon leave Aggie, our home for nearly four years, but with confidence of returning often. The class of 1923 has filled many positions on the varsity teams and has also played a large part in non-athletic activities. We sincerely hope our humble contributions may have added to Aggie's fame and that our interest and loyalty will hold us close to M. A. C.

1924 INDEX

The Class

- Abele, Trescott Tupper** Quincy
1901; Quincy High School; Animal Husbandry; Theta Chi; Class Track (1, 2, 3); Six Man Rope Pull (1, 2); Class Football (1, 2); Class Basketball (1, 2); Varsity Football (2, 3, 4); Aggie Squib (1, 2, 3, 4); Editor in Chief of *Squib* (4); Class Vice-President (1, 3).
- Alexander, Donald Briggs** Boston
1898; Boston English High School; Landscape Gardening; Sigma Phi Epsilon; Manager Freshman Football (1); Class Basketball (1); Class Relay (1); Class Baseball (1); Class President (1); Varsity Basketball (2, 3); Varsity Baseball (2, 3); Soph-Senior Hop Committee (2); Informal Committee (3); Interfraternity Conference (3, 4).
- Alger, Mason Williams** West Bridgewater
1900; Howard High School; Animal Husbandry; Alpha Gamma Rho; Varsity Football (2, 3, 4); Senate (4); Honor Council (4); Class Captain (3); Class Basketball (1, 2, 3); Class Sergeant-at-arms (1, 2).
- Arrington, Luther Bailey** Florence
1902; Northampton High School; Floriculture; Alpha Gamma Rho; *Collegian* (1, 2, 3, 4); Glee Club (1, 2, 3, 4); INDEX (3); Y. M. C. A. Cabinet (4); Manager Class Baseball (1, 3); Class Secretary (3); Class Historian (2); Floriculture Club (3, 4).
- Baker, Howard** Marshfield
1901; Dean Academy; Entomology; Sigma Phi Epsilon; Manager Class Tennis (1); Class Baseball (1, 2, 3); Manager Class Baseball (2); Class Hockey (2); INDEX (3); Class Treasurer (3); Varsity Hockey (3, 4).
- Bateman, Eleanor Willard** Arlington Heights
1902; Arlington High School; Animal Husbandry; Delta Phi Gamma; Freshman Show (1); Girls' Musical Clubs; Roister Doisters.
- Bates, Howard** Cohasset
1899; Cohasset High School; Pomology; Kappa Gamma Phi; Six Man Rope Pull (1); Class Football (2); Varsity Football (2).
- Bates, Robert Brooks** West Springfield
1901; West Springfield High School; Agriculture; Alpha Gamma Rho; Varsity Rifle Team (2); Class Rifle Team (2); Class Track (2); Varsity Track (3).
- Beal, James Allen** Abington
1898; Abington High School; Entomology; Kappa Sigma; Class Football (1); Class Basketball (1); Varsity Football (2, 3, 4); Varsity Basketball (2, 3); Class Treasurer (1); Class Vice-President (2); Class President (2); Interclass Athletic Council (1); Interfraternity Conference (2, 3, 4); Informal Committee (3, 4); Senate (3, 4); Adelpia.
- Bennett, James Stanley** South Meriden, Conn.
1898; Meriden High School; Poultry Husbandry; Alpha Gamma Rho; Glee Club (1, 2, 3, 4); Roister Doisters (3, 4); Interfraternity Conference (4).
- Boles, Inza A.** Dorchester
1898; Girls' High School; Floriculture; Delta Phi Gamma; Class Secretary (1); Roister Doisters; (2); Women's Student Council (2, 3, 4); Freshman Show (1).

1924 INDEX

- Borgeson, Melvin Benjamin** Worcester
1897; Worcester North High School; Landscape Gardening; Kappa Gamma Phi; Captain Class Rifle Team (1, 2); Interfraternity Conference (4); Landscape Club.
- Brewer, Gardner Hunt** Upton
1902; Upton High School; Animal Husbandry; Kappa Epsilon; Dairy Cattle Judging Team; Dairy Products Judging Team.
- Broderick, Lawrence Francis** Hyde Park
1902; Hyde Park High School; Farm Management; Kappa Epsilon; Glee Club (2, 4); Roister Doisters.
- Buckley, Francis Edward** Natick
1900; Natick High School; Landscape Gardening; Kappa Sigma; Manager Baseball (3); Soph-Senior Hop Committee (2); Informal Committee (4); Class Treasurer (3).
- Burbeck, Joseph Howard** Peabody
1898; Peabody High School; Landscape Gardening; Sigma Phi Epsilon; Class Football (2); Varsity Football (4).
- Burke, Edmund William** Watertown
1900; Watertown High School; Microbiology; Kappa Epsilon; *Squib* (2, 3).
- Cohen, Saul** Dorchester
1902; Boston English High School; Chemistry; *Collegian* (1, 2, 3, 4); INDEX (3); Varsity Football (3, 4); Class Hockey (2); Band (2).
- Collins, Donald Keith** Rockland
1901; Rockland High School; Animal Husbandry; Theta Chi.
- Cook, Frederick Belcher** Niantic, Conn.
1901; Crosby High School; Rural Sociology; Kappa Epsilon; Class Football (1); Class Rifle Team (1, 2); Varsity Rifle Team (2); Honor Council (1, 2, 3, 4); Christian Association Cabinet (3, 4); President C. A. (4).
- Corash, Paul** Worcester
1902; Classical High School; Animal Husbandry; Delta Phi Alpha; INDEX (3); Livestock Judging Team (4).
- Dickinson, Lewis Everett, Jr.** Holyoke
1901; Holyoke High School; Chemistry; Kappa Epsilon; Class Basketball (1, 2); Class Track (2); Manager Class Track (3); Roister Doisters (2); Varsity Basketball (3); Interfraternity Conference (4); Secretary Roister Doisters (3).
- Dowden, Philip Berry** Sandwich
1901; Sandwich High School; Entomology; Sigma Phi Epsilon; Class Basketball (1); Manager Class Baseball (1); Manager Class Football (2); Manager Varsity Basketball (4); Varsity Football (3, 4); Class Vice-President (2); Junior Prom Committee (3); Informal Committee (4); Class President (4).
- Faneuf, John Benedict** West Warren
1903; Warren High School; Chemistry; Kappa Epsilon; Glee Club (1, 2, 3); Class Baseball (1); Varsity Baseball (3).

1924 INDEX

Fitzpatrick, Leo Joseph Brockton
1900; Brockton High School; Agriculture; Kappa Epsilon; Animal Husbandry Club (2, 3, 4);
Pomology Club (3, 4).

Folsom, Owen Eugene Roslindale
1902; West Roxbury High School; Agricultural Economics; Phi Sigma Kappa; Freshman
Show (1); *Collegian* (1, 2, 3); Business Manager *Collegian* (4); Manager Six Man Rope Pull (2);
Soph-Senior Hop Committee (2); Business Manager INDEX (3); Chairman Junior Prom Com-
mittee (3); President Interfraternity Conference (4); Senate (4); Adelpia (4); Chairman
Informal Committee (4).

Friend, Roger Boynton Dorchester
1896; Dorchester High School; Entomology; Alpha Gamma Rho; Track (2, 3); Editor-in-
Chief INDEX (3); President of Senate, Honor Council; Adelpia.

Fuller, Robert Donald Woburn
1900; Woburn High School; Floriculture; Q T V Band (1, 2); Orchestra (1, 2, 3, 4); Soph-
Senior Hop Committee (2); Class Show Committee (1, 2).

Gamzue, Benjamin Holyoke
1900; Holyoke High School; Agricultural Education; Delta Phi Alpha; Burnham Declamation
Contest (1, 2); Varsity Debating Team (3).

Gerry, Bertram Irving Peabody
1896; Peabody High School; Entomology; Alpha Gamma Rho.

Gildemeister, Mary Katherine Belchertown
1898; Central High School, San Juan, P.R.; Pomology; Delta Phi Gamma; Girls' Clubs (2, 3, 4);
Pomology Club (4).

Giles, Clifton Forrest Newtonville
1899; Newton High School; Pomology; Sigma Phi Epsilon; Varsity football (2, 3, 4); Class
Football (2); Varsity Cross Country (1); Class Baseball (1, 2, 3); Class Basketball (2); Class
Hockey (2).

Gold, Philip Lynn
1901; Salem High School; Agricultural Education; Delta Phi Alpha; INDEX (3); Glee Clubs (3).

Goldstein, Joseph Lynn
1899; Lynn English High School; Dairying; Delta Phi Alpha; Dairy Products Judging Team.

Gordon, Howard Reynolds Ipswich
1899; Manning High, Ipswich; Pomology; Lambda Chi Alpha; Varsity Baseball (2, 3, 4);
Varsity Hockey (2, 3); Captain of Hockey (4); Class Baseball (1); Captain Class Hockey (1);
Soph-Senior Hop Committee (2); Six Man Rope Pull (2).

Graves, George Granville, Ohio
1900; New London, Ohio, High School; Landscape Gardening; Theta Chi.

Grayson, Raymond Henry Milford
1901; Milford High School; Agricultural Economics; Alpha Sigma Phi; Captain Class Football
(1); Class Basketball (1); Class Baseball (1); Class Captain (1); Class Sergeant-at-arms (1);
Varsity Football (2, 3, 4); Captain of Football (4); Class Smoker Committee (2); Junior
Prom Committee (3); Senate (3, 4); Adelpia (4).

1924 INDEX

- Hale, John Standcliffe** Glastonbury, Conn.
 1902; Glastonbury High School; Pomology; Phi Sigma Kappa; Class Basketball (1); Class Treasurer (1); Six Man Rope Pull (1); Freshman Show (1); Varsity Basketball (2, 3); President Pomology Club (4).
- Hallett, Melvin Bernard** Rockland
 1898; Rockland High School; Agricultural Economics; Theta Chi; Class Relay (1, 2, 3); Cross Country (2); INDEX (3); Interfraternity Conference (3, 4).
- Harrington, Robert John** Holyoke
 1899; Rosary High School; Entomology; Alpha Sigma Phi; Class Baseball (1, 2); Varsity Baseball (2, 3).
- Heath, Allan Jay** Newfane, Vt.
 1902; Leland and Gray Seminary; Animal Husbandry; Kappa Epsilon; Dairy Stock Judging Team; Dairy Products Judging Team.
- Hilyard, Norman Douglas** Beverly
 1900; Beverly High School; Agricultural Economics; Q. T. V.; Class Football (1); Manager Class Basketball (1); Freshman Show (1); Class Vice-President (2, 3); Varsity Baseball (1, 3, 4); Varsity Hockey (3, 4); Interfraternity Conference (3, 4).
- Hodsdon, Marshall Sinclair** Melrose Highlands
 1901; Melrose High School; Pomology; Phi Sigma Kappa; Six Man Rope Pull (1); Class Hockey (1); Class Treasurer (1); Class Secretary (2); Varsity Hockey (2, 3); Varsity Football (3).
- Holley, George Gilbert** Fiskdale
 1897; Hitchcock Free Academy; Landscape Gardening; Lambda Chi Alpha; Six Man Rope Pull (2); Class Football (2); Class Baseball (1); Varsity Baseball (2, 3).
- Hollis, Frederick Allen** Charlton
 1902; Charlton High School; Farm Management; Rifle Team (2); Varsity Football (3, 4).
- Hunter, Henry Leander** Pleasantville, N. Y.
 1901; Westtown, Pennsylvania; Pomology; Theta Chi.
- Irish, Gilbert Henry** Turner, Maine
 1898; Leavitt Institute; Pomology; Lambda Chi Alpha; Class Secretary (1); Class Banquet Committee (1); Freshman Show (1); Varsity Track (1, 2, 3, 4); INDEX (3); Varsity Cross Country (2).
- Johnson, Cleon Bancroft** Ipswich
 1900; Manning High School; Chemistry; Kappa Epsilon; Roister Doisters (2, 3, 4).
- Johnson, Eyrle Gray** Mattapan
 1901; Dorchester High School; Agricultural Economics; Lambda Chi Alpha; Class Rifle Team (1); Manager Class Basketball (2); Varsity Baseball (2, 3); Varsity Rifle Team (3).
- Lewis, Molly LeBaron** Jamaica Plain
 1902; Girls' Latin School; Animal Husbandry; Delta Phi Gamma; Women's Student Council (3, 4); Animal Husbandry Club.
- Linskog, Gustaf Elmer Richard** Roxbury
 1903; Boston English High School; Botany; Kappa Epsilon; *Squib* (1); Class Basketball (2); Manager Roister Doisters (3, 4); Academic Activities Board (3, 4); Phi Kappa Phi.

1924 INDEX

Luddington, Frank Dennison Hamden, Conn.
1900; New Haven High School; Landscape Gardening; Kappa Epsilon; Class Football (1, 2); Varsity Football (3).

MacCready, Donald Eugene Elizabeth, N. J.
1900; Battin High School; Pomology; Phi Sigma Kappa; Class Cross Country (1, 2); Varsity Cross Country (2, 4); Captain Cross Country (4); Class Track (1, 2, 3); Varsity Track (1, 2, 3, 4); Class Tennis (1, 2); Varsity Relay (2, 3, 4); Captain Relay (4).

Marshall, Alexander Borea Greenwich, Conn.
1894; Maryville College Prep. Dept.; Landscape Gardening; Theta Chi.

Marshman, Wilbur Horace Springfield
1900; Springfield Central High School; Pomology; Kappa Sigma; Class Basketball (1); Captain Class Baseball (1); Varsity Football (2, 3, 4); Varsity Basketball (2, 3, 4); Captain Varsity Basketball (4); Varsity Baseball (2, 3, 4); Vice-President of Senate; President of Adelpia; Interclass Athletic Board; Junior Prom Committee (3).

Martin, Frances Barbara Amherst
1902; Amherst High School; Agricultural Economics; Delta Phi Gamma; Roister Doisters (3, 4).

Martin, Robert Fitz-Randolph Springfield
1900; Springfield Technical High School; Agricultural Economics; Alpha Gamma Rho; Freshman-Sophomore Debate (1); Rifle Team (1, 3); Roister Doisters (2, 3, 4); Glee Clubs (2, 3); Class Vice-President (3).

Mather, Edna Amherst
1896; Moss House High School, Whitefield, England; Chemistry.

Minor, John B., Jr. Plainville, Conn
1896; Cheshire School; Chemistry; Kappa Sigma.

Mohamedi, Sageer Bombay, India
1900; Saint Xaviers High School; Pomology; Cosmopolitan Club.

Mohor, Robert de Sales Newton Centre
1900; Newton High School; Agricultural Economics; Phi Sigma Kappa; Class Football (1); Six Man Rope Pull (1); Class Sergeant-at-arms (1); Class Captain (2); Varsity Football (2, 3, 4).

Mudgett, Vernon Downer Lancaster
1902; Lancaster High School; Animal Husbandry; Lambda Chi Alpha; Class Football (1, 2); Varsity Football (3, 4); Class Basketball; President Animal Husbandry Club; Dairy Stock Judging Team.

Newell, Richard Carl West Springfield
1902; West Springfield High School; Floriculture; Alpha Gamma Rho; Class Cross Country (1); Class Track Manager (1, 2); Assistant Manager of Varsity Track (2); Manager Varsity Track (3); Floriculture Club.

Norcross, Harry Cecil Brimfield
1895; Springfield Technical High School; Agricultural Economics; Lambda Chi Alpha; Glee Club (1, 2); Orchestra (1, 2); Aggie Revue (1, 2); Agricultural Economics Club (2).

1924 INDEX

- Nowers, Donald Gilford** Danvers
1896; Cushing Academy; Landscape Gardening; Lambda Chi Alpha; Six-Man Rope Pull (1); Varsity Football (3, 4); Class President (1); Glee Club (3, 4); Orchestra (3, 4).
- Paddock, Wallace Earl** Worcester
Classical High School, Pomology; Lambda Chi Alpha; Varsity Track (2, 3); Class Treasurer (2); Pistol Team (2, 3); *Squib* (2, 3, 4).
- Picard, Charles Francis** Plymouth
1901; Plymouth High School; Chemistry; Kappa Epsilon.
- Putnam, Ernest Taylor** Greenfield
1897; "Hempstead," Long Island; Agricultural Economics; Kappa Epsilon; Class Historian (1); Manager Varsity Hockey (4).
- Richardson, Mark Morton** West Brookfield
1896; Leicester Academy; Pomology; Theta Chi; Pomology Club.
- Roberts, Arthur William** Hyde Park
1902; Hyde Park High School; Chemistry; Theta Chi; Class Track (2, 3); Varsity Football (3, 4); Class Football (2); Class Basketball (1); Class Baseball (2, 3).
- Russell, Charles Francis** Winchendon
1897; Murdock Academy; Animal Husbandry; Glee Club (2, 3, 4); Stock Judging Team (3); Animal Husbandry Club.
- Sandow, Alexander** Pittsfield
1901; Morningside High School; Microbiology; Delta Phi Alpha; Banquet Scrap Committee (1); Captain Class Debating Team (1); Glee Clubs (1, 3, 4); Captain Varsity Debating Team (3); Manager Varsity Debating Team (4); Academic Activities Committee (4).
- Sargent, Richmond Holmes** Winthrop, Maine
1897; Thornton Academy, Saco, Maine; Animal Husbandry; Kappa Sigma; Class Football (1); Class Basketball (1); Class Baseball (1); Varsity Football (2, 3, 4); Varsity Baseball (2, 3, 4); Captain of Varsity Baseball (4); Chairman Soph-Senior Hop Committee (2); Junior Prom Committee (3); Informal Committee (3); Adelpia (4); Class Captain (1, 2); Senate (4).
- Sears, Fred Grant, Jr.** Dalton
1901; Dalton High School; Pomology; Phi Sigma Kappa; Class Secretary (1); Orchestra (1, 2, 3, 4); Glee Club (2, 3); Class Rifle Team (2); Soph-Senior Hop Committee (2).
- Sharpe, Charles Gertner** Amherst
1887; Robbins High School, Norfolk, Conn.; Agricultural Education.
- Shea, Thomas Francis** Holyoke
1899; Holyoke High School; Chemistry; Kappa Gamma Phi; Catholic Club.
- Slade, Irving Woodman** Chelsea
1901; Chelsea High School; Agricultural Economics; Kappa Sigma; Freshman Show (1); Student Vandeville (2); Aggie Revue (3); Class Historian (2); Class Secretary (1, 3); Glee Clubs (1, 2, 3, 4); Leader of Glee Clubs (4); INDEX (3); *Collegian* (2, 3, 4); Editor-in-chief of *Collegian* (4); Adelpia; Phi Kappa Phi.
- Smith, Jeffrey Poole** West Roxbury
1902; Boston English High School; Pomology; Kappa Epsilon; Class Hockey (2).

1924 INDEX

Snow, Thomas Lathrop Greenfield
1900; Greenfield High School; Pomology; Alpha Gamma Rho; INDEX (3); Manager Musical Clubs (4).

Tanner, Edwin Worcester
1901; Worcester South High School; Microbiology; Kappa Epsilon; Cross Country (1, 3, 4); Track (3); Burnham Declamation Contest (1, 2); Class Debating Team (1).

Tarr, James Gordon Everett
1901; Everett High School; Agricultural Economics; Sigma Phi Epsilon; Freshman Show (1); Class Hockey (2); Varsity Hockey (3).

Tisdale, Edward Norman Medfield
1902; Medfield High School; Pomology; Lambda Chi Alpha; Cross Country (1, 2, 3); Manager Class Hockey (1); Y. M. C. A. (2, 3, 4); Assistant Cheer Leader (3); Spring Track (1, 2, 3); Pomology Club (3, 4).

Towne, Carroll Alden Auburndale
1901; Loomis Institute; Landscape Gardening; Q. T. V.; Musical Clubs (1, 2, 3, 4); Roister Doisters (2); INDEX (3); *Squib* (1, 2, 3, 4).

Towne, Warren Hannaford Cambridge
1901; Rindge Technical School; Animal Husbandry; Kappa Epsilon; Varsity Track (1, 2, 3); Cross Country (1, 2); Animal Husbandry Judging Team (4).

Tumey, Malcolm Edward Deerfield
1898; Deerfield Academy; Pomology; Q. T. V.; Varsity Football (2, 3, 4); Varsity Basketball (3, 4); Track (3); Class Basketball (1, 2); Class Football (1, 2).

Turner, Dorothy VanHoven Washington, D. C.
1901; Amherst High School; Agricultural Economics; Delta Phi Gamma; Women's Student Council (4); Class Historian (2, 4).

Wendell, Richard Goodwin Belmont
1902; Belmont High School; Pomology; Phi Sigma Kappa; Mandolin Club (1, 2); Glee Clubs (1, 2, 3, 4); Orchestra (3, 4); Leader of Orchestra (4); Burnham Declamation Contest (1, 2); Flint Oratorical Contest (3).

Whitaker, Holden Newton Highlands
1900; Newton High School. Agricultural Economics; Q. T. V.; Class Baseball (1, 2); Class Hockey (1, 2); *Collegian* (1, 2, 3); Varsity Hockey (2, 3, 4).

Whittier, John McKay Brookline
1901; Everett High School; Agricultural Economics; Kappa Sigma; Manager Varsity Football (4); Glee Clubs (1, 2, 3, 4); *Collegian* (1, 2, 3, 4); INDEX (3); Manager Class Hockey (2); Freshman Show (1); Aggie Revue (3).

Williams, Forrest Earl Sunderland
1902; Deerfield Academy; Pomology; Q. T. V. Football (2); Six Man Rope Pull (1); INDEX (3); Rifle Team; Captain Pistol Team.

Wirth, Conrad L. Minneapolis, Minn.
1899; St. John's Military Academy, Delafield, Wisc.; Landscape Gardening; Kappa Sigma; Class Football (1); Class Basketball (1, 2, 3); Class Sergeant-at-Arms (1, 2); Varsity Football (2, 3); Class Basketball Manager (3); Varsity Cheer Leader (4); President Landscape Club (4).

JUNIORS

The Junior Class

Officers

<i>President</i>	Charles J. Tewhill
<i>Vice-President</i>	Edward L. Bike
<i>Secretary</i>	Richard B. Smith
<i>Treasurer</i>	Edward Kane
<i>Historian</i>	Ruth M. Wood
<i>Captain</i>	Kenneth Salman
<i>Sergeant-at-Arms</i>	Chester Whitman

The Class History

THE opening day of college, September 29, 1920, one hundred twenty slightly bewildered and very eager Freshmen met together as a class for the first time at assembly in Bowker Auditorium. How imposing the Auditorium appeared to us that day, and how large seemed the student body of which we, at least, were a part! Long will that first assembly with President Butterfield's speech of welcome and afterwards the singing of "Sons of Old Massachusetts" remain vivid in our memories. Each one of us thrilled to the promise of that song and responded deep in our hearts to the call of our chosen college.

Our first year at Aggie was a great year in her history, for she was celebrating the Fiftieth Anniversary of the graduation of her first class. The dedication of the first women's dormitory, The Abigail Adams; the holding of many national conferences on agriculture and country life, which brought groups of noted people to the campus at frequent intervals; the completion and dedication of the Memorial Hall; and then the splendid week of the Fiftieth Anniversary Commencement, contributed to make a glorious year for the college, and a most inspiring year for us, the youngest class.

1924 INDEX

Our Freshman year brought a full share of class triumphs. The Freshman-Sophomore hockey and basketball games went to us. In a lively banquet scrap we achieved victory again over the class of '23. The encounter took place behind the cold storage plant, after our class had spent the night crowded into some abandoned chicken coops. We tied and handcuffed practically all of the Sophomore Class and imprisoned them in the Drill Hall. The girls for the first (and probably the last) time in the history of the college had a part in that battle to the extent of keeping the Sophomore girls locked all night in a room at the Abbey, by using a fire hose and ruining part of the food prepared for the Sophomore men.

Our girls have done much to develop college life, for members of our class as Freshmen took a major share in launching the Y. W. C. A., and they have also had an active part in the dramatic and literary activities of the campus.

A long series of interclass victories came to us our Sophomore year. We won both rope pulls, the Freshman-Sophomore debate, the numeral games in football, hockey, basketball, and baseball. One event which stands out sharply in our memories was the night before March 17 when the Freshmen got together at midnight and attempted to burn their Frosh caps on the ground of Wilder Hall. Then came a second triumphant banquet scrap, when we captured almost every Freshman in a brief hand-to-hand fight upon the hill below the orchard. To complete the victory we succeeded in finding and taking all but two of their officers.

As Juniors we have settled down to a program of earnest study in our major courses, yet we are supporting with keen interest and effort all the interclass and varsity activities. One more year remains to us at Aggie before we must leave its shelter and its happy comradeships. When the time comes to part from our well-loved college we shall face bravely the task of carrying its teachings out with us into the world.

The Class Presidents

Freshman Year

Kenneth A. Salman

Needham, Mass.

1924 INDEX

ROBERT ARTHUR BARROWS

"BOBBIE"

Quincy

Quincy High, Thayer Academy

1902; Pomology; Class Basketball (1); Class Baseball (1); Class Sergeant-at-Arms (1); Class Football (2); Varsity Basketball (2); Varsity Baseball (2); Varsity Football (3); Lambda Chi Alpha.

Bobby is one of our numerous and established athletes and you've got to hand it to him that he's done well in all he's undertaken. He's always full of "vim, vigor and vitality" and for this reason has featured in many class and college activities. There is just one thing Bobby needs to make his fortune and that is to cultivate his "walk" and go into the movies in direct competition with Senor Chaplin. Oh, it's a beaut! Bobby used to be a great favorite with the co-eds but spends his spare times in other regions. Stick with 'em, Robert, we're all behind you.

FREDERICK SHELDON BARTLETT

"FREDDIE"

Westfield

Westfield High School

1902; Chemistry; Class Basketball (1, 2); Class Baseball (1, 2); Statistics Editor 1924 INDEX; Rifle Team (2); Sigma Phi Epsilon.

The real Fred is hidden behind a mask, blase and careless. His best friends alone know the man as he is. They remain his best friends — what more may be said of any man? More than a little, a humorist and raconteur, Fred can delight anyone when he chooses. Also when he chooses he can surprise his professors with evidences of a very good intellect. Fred is an active and well liked member of his class and college. The list of activities in which he has made good tell their own story; he gave the best that was in him.

PERRY GOODELL BARTLETT

"P. G."

Holyoke

Holyoke High School

1903; Chemistry; Class Football (1, 2); Class Basketball (1); Varsity Football (2, 3); Manager of Varsity Baseball (3); Sophomore Hop Committee (2); Lambda Chi Alpha.

Once upon a time there was a man who was a star on the class firmament, but with the advent of the class of '26, fell abruptly and was soon no more. Yet the little frogs in the pond were heard to say at 10 P. M. most every day, "Here comes 'P. G.' again — he is going home from somewhere."

And this on top of football in the fall and the cares and responsibilities of managing a varsity baseball team, Perry's star has changed into an electric light.

1924 INDEX

CLIFFORD L. BELDON

"KIP"

Bradstreet

Smith Academy

1902; Agricultural Economics; Freshman Banquet Committee; *Collegian* (1, 2, 3); Assistant Manager Musical Clubs; 1924 INDEX Circulation Manager; Kappa Sigma.

Kip is a product of the onion fields of Hatfield. Hearing the echoes of the activities on the Aggie Campus resounding from the surrounding hills, he decided that Aggie must have something of interest for him. Kip was one of the early disturbers of the peacefulness of the campus pond. His greatest regret since coming on the campus is that drill is required only two years here, for he especially enjoyed the 7.30 A. M. drill during his freshman year. Kip delights in gut courses; he is flipping coins with Doc. Cance at present, — Aggie Ec. is his Major.

EDWARD LOUIS BIKE

"EDDIE"

Westfield

Westfield High School

1902; Agricultural Economics; Class Basketball (1); Class Baseball (1, 2); Class Football (2); Sergeant-at-Arms (1); Football (2, 3); Varsity Basketball (2, 3); Class Vice-President (3); Senate (3); Inter-class Athletic Council (2); Sigma Phi Epsilon.

"Eddie" joined our ranks from the fighting city of Westfield and ever since his arrival he has been holding up her reputation. Don't mistake me though, and expect to find his picture one of the pugnosed variety for "Eddie" possesses his share of good looks. On the basketball floor we find "Eddie" in his prime. He started out on the class team freshman year, but our sophomore year found him on the varsity quintet and playing a mighty good game. "Eddie" has elected to spend the rest of his college career in the library and as long as he stays out from under the clutches of "Doc" Cance, he will be among "Aggie's" best athletes.

RICHARD BITTINGER

"BIT"

Northfield

Plymouth High School

1902; Poultry Husbandry.

One of our latest arrivals and consequently spared the slurring pen of those rising young authors on the Board. Why he left Dartmouth is purely problematical, but the chances are 10-1 it was because he wanted to. We trust that "Bit" will enjoy his next years with us and we hope to know him better. He is accomplished in the art of sleeping in Assembly with his eyes open. They say he passes many hours at the Micro building. Well, there are two or three attractions there, but one should naturally assume that it was his studies that he was attending to. As they say at Harvard "Press on, men", we're sure you'll make out all right.

CHARLES ATWELL BOWES

"CHICK"

Worcester

Worcester Classical High School

1901: Agricultural Education; *Squib* (1, 2, 3); Q. T. V.

A comfortable Wall Street Broker; a head-waiter out for a stroll; a successful landscape architect — any of these might be represented by "Bowes, C. A." He is a fellow of opposites — while one of the classiest dressers, he claims to be always down at the heel as far as his finances are concerned. He looks like a great admirer of the co-eds, but, oh, to hear him criticize! Always leisurely, he is nevertheless one of the *Squib's* best shekel-chasers. And even passing for a meticulous correct young man in all details, he can talk like a New "Yoick" East-sider. He comes from Worcester, which probably explains it all.

FRED BRUNNER, JR.

"FREDDIE"

New York City

Peddie Institute

1900: Agricultural Economics; *Squib* (1, 2); Literary Editor of *Squib*; Rope Pull (1); Class Basketball (1, 2); Class Baseball (1, 2); Baseball (1, 2); INDEX (3); Phi Sigma Kappa.

"Freddie" comes from the famous knickerbocker city and if you want to start him talking, just mention New York City; you will get an ear full. He came here from that famous prep school called Peddie, and what Fred didn't do down there nobody else could do. He has shown his versatility by trying a little bit of everything except football, and has been quite a success. "Freddie" doesn't seem to like work very well, but outside of this one failing he gets along fairly well.

VICTOR HARRISON CAHALANE

"Vic"

Charlestown, New Hampshire

St. John's Preparatory School

1901: Landscape Gardening; Manager Class Baseball (1); Literary Editor INDEX (3); Alpha Sigma Phi.

Along in the winter of the Sophomore year, Vic crawled out of his cave long enough to capture the Literary Editorship of the INDEX and crawled back again, to emerge only when work was to be done. As he spends his school time worshipping trees, and his summers doctoring them, he has grown like one of them, sturdy, silent, with the calmness that asks for perfect confidence and earns it by action. The pine tree is the prototype of this man. "Some girl will get him yet, — if he don't watch out!"

1924 INDEX

EARLE STANTON CARPENTER

"CARP"

Rehoboth

Moses Brown School '20

1902; Floriculture; Freshman Football Manager (1); Manager Varsity Football (2, 3); Interfraternity Conference (3); Floriculture Club (3); Alpha Sigma Phi.

Carpenter in knickers scurrying along the edge of the football field hugging a bag as big as himself; Carpenter bustling up fraternity row looking for somebody or something; Carpenter going somewhere in a hurry! Enough energy is sewn up in this little Football Manager of ours to run two or three linemen on the field — and who shall say "Carp" is not as important? Withal, he is as mild as new cheese and as sweet!

THEODORE MARTIN CHASE

"TED"

Milton High School

Milton, Mass.

1901; Animal Husbandry; Class Football (1, 2); Class Hockey (1, 2); Class Secretary (1); Hockey (2); Track (2); Phi Sigma Kappa.

Ted's first tooth kept him awake all one night. He has never caught up on that sleep yet. 'S-funney, but these sleepy people are usually good natured, and you would think Ted would be. He is!

On Ted's tombstone will be written: "He loved his college and fought to stay in her; he came back to all class reunions, and his four sons are now guarding his college spirit in M. A. C. He was a man."

And his motto: "Yea — Fight!"

EARL AUGUSTUS CROMACK

"EARL"

Shelburne Falls

Mount Hermon School

1896; Rural Sociology; Y. M. C. A. (3); Theta Chi.

It is a good thing that Earl was in the army, for he must have been "hardened" enough to make him tough eating. This may save his being served up as supper to a cannibal chief, for he intends to be a missionary.

Although he is quiet, he has that which is called "latent fire", and will indubitably find a place where he will help others, which is every man's true purpose in life. It is to be hoped that he will not try to divide his sermons into as fine details as he does his questions in class, for if he does, heaven help his congregation!

1924 INDEX

ROBERT MARTIN DARLING

"HANK"

Cambridge

Cambridge High and Latin School

1903; Agricultural Economics; Roister Doisters (1, 2, 3); Class Baseball (2); INDEX (3); Glee Club (3); Quartette (3); Q. T. V.

All Hank needs is a red-hot stove and a sawdust box to make him happy. No, that's a joke, but doesn't he look it? Lank and lazy, yet he is one of the cleverest stage artists since the advent of Shakespeare.

With a shape and face that were made for a Darwin or a Wells, he dabbles in charts and statistics.

He will be a bachelor, for who could ever stand the ceaseless grind of puns if he had to go home at night to have his dear wife call him by no more affectionate appellation than his last name?

HOWARD HALSEY DAVIS

"DAVE"

Brockton

Brockton High School

1902; Animal Husbandry; Animal Husbandry Club; Lambda Chi Alpha.

Right from one of the greatest shoe manufacturing cities in the country; but "Dave's" heart is not in the industrial world, for he'd rather survey his work from the back of a high-stepping horse than from behind a mahogany desk. His learning has not all come from between the covers of textbooks or out of the mouths of profs; but rather from wanderings over the country and reading of the endless streams of literature. If you want to know the shortest and best way to get to any place and the best places to stop on the way, ask him, because he has been there, and knows.

CHARLES FREDERICK DEUEL

"CHICK"

Amherst

Andover Academy

1900; Agricultural Economics; Q. T. V.

After attending Andover Academy for a while "Chick" decided to finish his schooling in his home town so we find him in the class of '24. Since "Chick" is a native he seems to get along well with all the Profs, whether he has a pull or not, we don't dare say. "Chick" doesn't like to get up very early, so quite often we see him come in after the bell has rung. He took a course as candidate for manager under "Put" out on the hockey rink, but even though he didn't land the job, we all think he can talk a bit faster than before.

1924 INDEX

WALTER LEWIS DIMOCK

"WALT"

Oxford

Oxford High School

1901; Animal Husbandry; Debating (2); Animal Husbandry Club; Class debate (2); Assistant Manager Debating (3); Theta Chi.

Like a ground-hog in his burrow, Walt hibernates in the basement of the Memorial Building, coming to the surface only when necessary to attend classes. To the patrons of the College Store he is well known. Walt is a fluent and convincing talker and can sell stale candy, and convince the purchaser that he is buying ambrosia. For obvious reasons he has been attracted into debating; for less obvious reasons he is majoring in animal husbandry. Perhaps because he is so successful in training and drilling freshmen, he thought he would do equally as well raising other kinds of animals.

ALLEN LUCIUS DRESSER

"AL"

North Amherst

Leominster High School

1901; Agricultural Education; Assistant Manager of Roister Doisters; Q. T. V.

Here is an enigma. Just what to make of him his classmates find it hard to decide. A neat vagueness of appearance and an ever courteous reserve keep Al somewhat apart from his fellows. Those who know him well maintain him to be the salt of the earth, but alas, not all of us are granted that privilege. We hear though that Al is an adept in the gentle art of "fussing", he even has the reputation of being quite a Don Juan, though a very discreet one. Al is very much the gentleman. Perhaps that is why he does not "mix" with many of us.

JAMES ALEXANDER ELLIOTT

"JIM"

Summit, New Jersey

Mount Hermon

1887; Pomology; Kappa Epsilon.

"Old Man Elliott" is an enthusiastic supporter of 1924 both in the class-room and outside. His jerky "E-excuse me, but I don't quite see that", has brought many a Prof immersed in his intricacies Geology, Math or Physics, from full speed ahead to a dead stop. To watch him at a class game would make one sure that a few years of age can easily disappear, and in our minds that idea was fixed by him in our freshman banquet scrap, when, rain running both ways off his shoulders, he helped to escort to the Drill Hall the be-wired, be-chained, but still husky Mudgett.

1924 INDEX

GEORGE EDWARD EMERY

"RED"

Marlboro

Marlboro High School

1904; Entomology; Class Football (1); Manager Class Football (2); Sigma Phi Epsilon.

"Red" is the college pepper as well as the mocking-bird's ankles. His ease of motion is graceful and voluptuous and at his command the whole student body will rise as one. We might add, that as cheer-leader we see born anew in him the spell of Hooper. Red has offered us more amusement than anyone else in college and always at the most unexpected times. For a quiet guy, "Red," you certainly create an awful stir. Here's hoping we may all thrill or hide behind our fans, at your inventive, imitative ingenuity many times before the college loses your insignificant impressiveness.

MARTHA SCOTT EPPS

"MARTHA"

Wilbraham

Central High School, Springfield

1901; Agricultural Economics; Class Treasurer (2); Nominating Committee (2); Secretary Y. W. C. A. (3); Women's Student Council (3); Delta Phi Gamma.

Martha never was very boisterous. She came to us as a normal, healthy lass, exceedingly demure outwardly, but bubbling over with fun and enthusiasm inwardly. And then — she "bobbed" her hair and for a long time we were not permitted the sight of her — I can't say light, golden, or wavy, so I'll simply say — hair. It was some time before she finally recovered, and when she did the little Tam o' Shanter came off and the smile returned. If Martha's heart is as big as her handwriting there is certainly room for us all there. Like the rest of our worthy co-eds Martha is studiously inclined.

JOHN MICHAEL FENTON

"JACK"

Amherst

Amherst High School

1901; Agricultural Economics; Class Football (1, 2); Inter-fraternity Conference; Kappa Gamma Phi.

"Jack" might be called "the fighting lad". Ever since he came here from the high school he has been fighting to stay here. "Jack" is beginning to believe that the Profs do not appreciate local talent, but just the same he always comes back with a grin. He is our star first baseman on the class team and has ambitions towards the varsity, but still the axe stands ready and the Profs are bound to clip his wings.

1924 INDEX

LELAND H. FERNALD

"LEE"

Arlington

Lexington High School

1902; Pomology; Six Man Rope Pull (1); Relay (2, 3); Lambda Chi Alpha.

Lee Fernald blew into M. A. C. from Arlington. He either blew in, or was wafted in on his own wind, for Lee's is a breezy disposition. Be that as it may, it was surely no ill wind. Any class needs just such cheery lads as Lee to keep up the general morale, and to keep things moving. Despite his extremely studious appearance, he has an elf-like grace and speed that enable him to perform equally well at a dance or on the relay track. Lee is very likely to be successful in whatever he attempts after leaving M. A. C., if he overcomes a tendency to hide his light beneath a bushel.

RUTH GUILD FLINT

"FLINTIE"

Allston

Girls' Latin School

1901; Pomology; Treasurer Y. W. C. A. (3); Delta Phi Gamma.

One of the most loyal of our co-eds is Flintie, as she showed early in her history.

Once, back in the days of 1924's strife, when we rose and trampled 1923 in the Baugnet scrap, one there was who came leading the co-eds of that 1924 to class meeting to give us support — and later, on the dread night, eats.

When the class had passed into maturity, and the stage was cleared for new dramas, she took part with another in a play, "Us Two".

MARY J. FOLEY

"MARY"

Worcester

Worcester Classical High School

1903; Agricultural Economics; Y. W. C. A.; Delta Phi Gamma.

Mary is a late arrival in the class of '24, having made her first appearance in our sophomore year, transferring from Jackson College. Mary has been very diligent since her arrival upon the campus. That Mary was intended for the agricultural industry may be readily seen from her size and healthy appearance. We sometimes wonder how the other girls fare when Mary gets rough-housing at the Abbey.

SHERMAN CLARK FROST

"SHERM"

Province Lake, N. H.

Cambridge High and Latin

1900; Pomology; Interclass Track (1); Class Football (2); Cross Country; Sigma Phi Epsilon.

A college man with true dignity of character is, sad to say, an exception to the general rule. Sherm is one of the exceptions of whom M. A. C. may boast. In a quiet, efficient way he has been going about, acquiring at this institution just what he wants, and it is safe to say that, unlike many of us, he knows exactly what he is after. No one ever said of Sherm that he was a "good mixer". A strong sense of modesty combined with a reserved nature prevent many of us from knowing him as he is. He is respected and liked by all who do have the chance of being admitted within his circle of friends.

WILLARD CHAMBERLAIN FROST

"BUD"

Milford

Milford High School

1903; Landscape Gardening; Orchestra (2); Glee Club (2, 3); Quartette (2); Dramatics (1); INDEX (3); Landscape Club; Theta Chi.

A dervish clawing the soul from a piano, a player jazzing the latest musical hit in a pulsing rhythm that starts even the chairs to dancing — that is one's first impression of Bud. But when he is his normal self, how different — a debonair, likable chap with a smile and a good word for everyone. Bud is staying with us with the evident intent of being a landscape architect. He surely should be a good one, if ability and artistic taste have anything to do with it. He may be lured from the vocation which he is now studying, though. We would not be surprised to see him some day bring an orchestra of his own to play for a future M. A. C. Junior Prom.

JAMES HERBERT GADSBY

"Doc"

North Adams

Drury High School

1895; Landscape Gardening; Q. T. V.

Doc, being a man of more mature years and a survivor of that scrap around 1917, never says much around the campus. But, if you ever get him engaged in a conversation you will be informed with the new ideas on nearly every subject conceivable. Herbert lives on the theory that one hour of sleep in the morning is worth four hours of it at night. He tried out for a "slightly edged" part in the Prom show and did it so naturally that they thought he was a little "boiled" and would not give it to him. By a process of deduction it is inferred that Doc enjoyed his two years at Illinois, before the war, for when the Dean spoke here, he knew Doc immediately and called him by name.

1924 INDEX

ALFRED CORWIN GARRETSON

"GARRY"

Bound Brook, N. J.

Bound Brook High School

1902; Animal Husbandry; Class Baseball; Class Relay; Class Secretary (2); Class Football; Six Man Rope Pull; Banquet Committee; Phi Sigma Kappa.

The class mystery! So quiet, yet so in the limelight. As a hockey player he is a perfect broom; as a trackman he can't be passed, and as a fusser they say he's there. Garry never says much unless it is to bolster up class spirit or to make a date. We have him at the making of the date, for the rest of the evening is a mystery. Garry, we enjoy your endeavors for the class and we hope you will continue them throughout your remaining stay in college.

ALFRED FULLICK GAY

"AL"

Groton

Groton High School

1901; Pomology; Editor-in-Chief 1924 INDEX; Junior Prom Committee; Vice-President Pomology Club; Theta Chi.

"Al" came here as a member of '23, but during his second year he made a lengthy stay at the Infirmary. Result; he is now one of the "strong men and true" of '24.

Al is a quiet fellow and one with whom it is hard to become acquainted. Succeed, and you have a true-blue friend. This year he has been busy acting as Editor-in-Chief of the INDEX, and rushing the Abbey. We think everyone will agree, when the INDEX appears, that he has succeeded in the former; we know he has made a "decided" success of the latter.

AIMEE SUZANNE GEIGER

"BOBBY"

Pepperell

Pepperell High School

1903; Floriculture; Roister Doisters (2); Y. W. C. A. Cabinet (3); Delta Phi Gamma.

As a Yankee co-ed Bobby is some Irish maid. This great honor will not be denied her by anyone who saw the Prom show of 1922. She certainly made a lot of us long for the "Auld Country". Bobby is another "little sinner" who bobbed her hair, but experienced no outward chagrin and therefore is only to be pitied. She is full of pep and ginger, coming from a town where our best Massachusetts "soft drinks" are bottled. She certainly is liked by all who come in contact with her. Bobby's chief interests here is Floriculture. Good luck, Bobby, and may your baby talk never reach its teens!

1924 INDEX

RICHARD SMITH GIFFORD

"Dick"

South Westport

Moses Brown School

1903; Agricultural Economics; Class Basketball (1, 2); Class Baseball (1, 2); Class Relay (2); Fresh-Soph Debate (2); Chairman Soph-Senior Hop Committee; Baseball (2); Interfraternity Conference (3); Varsity Cross-Country (3); Relay (3); Junior Prom Committee (3); Sigma Phi Epsilon.

"And then, forsooth, came up from the salt marshes one knighted Sir Richard, and he was exceedingly good to look upon. And oftentimes while in the pursuit of learning did he disappear from his accustomed haunts and attend a prom or hop, in order that his feet should not lose their skill in the dance, nor his line its potency.

"And if it so happened that those who were known as 'Frosh' went on a tear, then was Sir Dick there with his trusty paddle. And his coat-of-arms was inscribed with Loyalty, Friendship and Speed, with a Bull above and a Heart below. Also were his friends many on the campi, but most on the campus called Aggie, for he had many in his comrades-in-arms."

ELIOT GRAY GOLDSMITH

"GOLDIE"

Brookline

Brookline High School

1901; Agricultural Economics; Class Hockey (1, 2); Varsity Hockey (2); Soph-Senior Hop Committee; Kappa Sigma.

Slick, smooth and snaky — the perfect chorus man. Proms, hops, house dances and informals are all graced with his presence. His evenings are spent answering letters from his sixty-odd (no, the accent is on the sixty) girls, and his days in parting his hair. But if he can show a mean heel on the dance floor, he can show a meaner one on skates, for he plays a wicked game on the varsity. All that he needs now to complete his happiness is the ability to grow a mustache. Perhaps by his senior year he will. And then won't he be just wonderful, girls?

ALEXANDER WATSON GRIEVE

"ALEX"

Dorchester

George Stevens Academy

1899; Floriculture; Manager Class Basketball (2); Track (2); Alpha Gamma Rho.

Alex's first adventure on the campus was in the Two Year Course, but he soon decided that the joys of college life should be of longer duration. In spite of the fact that "Billy" caught him in his snare, Alex is proceeding under the coaching of Prof. Thayer, determined some day to "Say it with Flowers". Alex practices what he preaches. His advice is "work from the bottom up"; he began as a plumber's assistant last summer.

1924 INDEX

PATRICK LOUIS GRYZWACZ

"PAT"

Ware

Ware High School

1902; Chemistry; Class Football (2); Football (2, 3); Kappa Gamma Phi.

On a still night you can hear Pat's laugh in North Amherst. But at that, it seems to be attractive. Before he had been in town a week he was stepping out seven nights a week and three afternoons — the other four he played football.

Collegiate is a mild word when describing Pat's clothes. He is the male super-flapper. Ware wakes up when he goes home for the town is his — he says so himself.

MALCOLM RAWSON HASKELL

"Mac"

Lebanon, N. H.

Lebanon High School

1902; Chemistry; Freshman Baseball (2); Aggie Revue (2); Kappa Sigma.

Mac hails from Lebanon, N. H. His home town has been described by one who has been up there, as follows: — "What North Amherst is to Aggie, Lebanon is to Dartmouth." Mac's favorite winter sport is splashing through the slush with his goloshes flapping, never leaving his course for other people. So long as he can keep his pipe filled and his suit nicely pressed, Mike is at ease. Chemistry is his aim here, but it is often side-tracked for women; he has been known to travel far and wide to spend a few hours with the fair ones.

LUTHER LEONARD HAYDEN, JR.

"LEN"

Brookville

Sumner High School

1901; Animal Husbandry; Animal Husbandry Club (3).

The formulae for the energy given out by the standard electrical machines, the location of the duodenum of the cat, the origin of a drumlin — all these and everything else are easy to this prodigy. He eats 'em alive — escaped Billy's exam., which proves it. He's out to revolutionize Animal Husbandry and by evidence of his doings since he joined us, we believe he can do it. If knowledge is power, Hayden has the jump on most of us.

CARROLL VICTOR HILL

"KIKE"

Worcester

High School of Commerce

1901; Landscape Gardening; Varsity Track (1, 2); Cross Country (3); Class Basketball (1, 2); Vice-President (1); Landscape Club; Lambda Chi Alpha.

Kike is a strong sponsor of psychology; he has been known to practice it with decided success in his track work. We wonder if he has ever tried it on his cute curl which so persistently maintains its own position regardless of comb, water and brush. Kike craves those trips to Worcester; there seems to be a strong reason on the other end. On the track team he may be seen tearing up the ground in the mile, running with cross-country boys, or topping the hurdle bars. Kike aspires to be one of Professor Waugh's landscape artists.

CLARENCE WARREN HOLWAY

"CLARENCE"

Putney, Vermont

Holden, Mass., High School

1903; Floriculture; Six Man Rope Pull (2); Football (2); Alpha Sigma Phi.

All hands and feet might be his name, but then you haven't looked very deeply. Under that chest is about as fine a heart as ever beat a tattoo when the girls came in. For Clarence seems to draw them around him like helpless chips to a whirlpool.

It is only to be hoped that his honest and conscientious character will not get spoiled, for many a man, yea, even in his own class, has been known to slip, wave wildly once, and disappear into pre-conubial darkness. Yet Clarence will finish his work, no matter what he starts, and the best of luck to him.

DORIS HUBBARD

"Dot"

Newton

Miss McClintock's School

1901; Pomology; Secretary Women's Student Council; Y. W. C. A.; Delta Phi Gamma.

If you ever see a Winton Six go floating by driven by a charming young lady of not so many summers, and one who looks neither to the right nor to the left, you will know that there is Doris. She never says much unless she is spoken to, but you never can blame her for that. She found it very hard to get a good apple around Boston so she has decided to grow them herself. Doris can evidently hold her own in a scrap, however, judging from the returns we got one fine spring morning. Don't be shocked; it was a part of the banquet season. Because of illness, she has been compelled to leave us once or twice but we always welcome her return, because it means that everyone but the Chemistry Department will be just a little bit happier.

CARL FREDERICK ISAAC

"IKE"

Brighton

Brighton High School

1903; Pomology; Varsity Track (1, 2); Class Track (2); Varsity Cross-Country (3); Alpha Gamma Rho.

Carl reminds us of champagne — those of us that can be reminded that way — he is dry and sort of exhilarating — what the college-bred man in his college-bred English would rise to remark as a "wise cracker". He wields a wicked towel in the dining-hall and exercises his other extremities tearing madly over cow-paths like a calf in training for the near approach of summer — yes — cross-country. Even if he is only five feet four.

LOCKE LeBARON JAMES

"LOCKE"

West Bridgewater

Brockton High School

1897; Poultry Husbandry; Alpha Gamma Rho.

After two years of study at M. I. T., Locke decided that Aggie was the place for him. Whether or not proximity to the State Farm influenced him to seek the western part of the state is an unsettled problem. At any rate, Locke is here to enjoy the sights of the Connecticut Valley with the rest of us. The charm of music is fully appreciated by this fellow; it becomes his chief source of joy. Locke's object here is poultry husbandry. He firmly believes that raising chicks does not in any way interfere with raising a family, for he has already made a marked progress in the latter.

EDWARD ANTHONY KANE

"Sug"

Westfield

Westfield High School

1901; Chemistry; Class Basketball (1); Class Baseball (1, 2); Six Man Rope Pull (1); Sergeant-at-Arms(1); Basketball (2); Baseball (2); Q. T. V.

Enter upon the scene of action Mr. Edward Kane, scientist, pugilist, toreador, and Irishman. Some of the greatest men on this campus have discovered that Sug is a man who thinks scientifically, talks scientifically, and plays scientifically. In basketball it is with infinite grace that he pounds his feet upon the floor and picks up splinters with his shins. In the ring Sug finds it very easy to bury his nose in the mat. It is only because of his implicit faith that he dares to bounce so carelessly from his opponent's glove to the ropes and back again. Yes, Sug is a glutton for punishment when it comes to a physical showdown, but in the new collegiate game of throwing the "bull", it is his adversary that must suffer.

LOWELL FRANCIS KENNEDY

"Ducky"

Cambridge

Cambridge High and Latin School

1900; Animal Husbandry; Orchestra (1, 2); Glee Club (2); *Collegian* (1, 2, 3); Class Relay Team (2); Class Secretary (1); Q. T. V.

Briefly "Ducky" is what is known as an "urban rustic": dreamy, musical, elite, and almost dangerously susceptible to the exterior charms of "flapperism". Yet from all these distinctions "Ducky" is a great "kid". There are just two times when "Ducky" has nothing on his mind; namely, when he is asleep and when he is in a class. However, you can't beat him for college spirit and volume of voice. He is everybody's friend, partial to none, and if you don't know "Ducky" you don't know half the college. Give him a chance and he will ask the President of the United States for a "fight", maybe.

ROSEWELL HOWARD KING

"Rosie"

Millville

Dean Academy

1902; Animal Husbandry; Alpha Sigma Phi.

When Rosie arrived on the campus no one heard a sound, but when it came to that sixty-man rope pull, '23 felt an awful jerk. Ever since helping delay our bath in the Pond, Rosie has been on the "strong arm squad". He struck a slight snag in Public Speaking under Professor Patterson, but after getting over his fits of stage fright he soon became a speaker of note. Rosie doesn't have very much to say to many of us, but if you want to get him started, all you have to say is something about An. Hus. and he will give you all the first-hand information asked for.

ERIC FRANKLIN LAMB

"Eric"

Waban

Newton Classical High School

1902; Agricultural Economics; Mandolin Club (1); *Squib* (1, 2, 3); Class Hockey (1, 2); Class Sergeant-at-Arms (2); Varsity Hockey (2, 3); Theta Chi.

In order to "get him right", you have got to know Eric. He has the great failing of becoming indignant when anybody catches him up on anything that he is wrong about. Eric has a great future ahead of him, if the arguments and beatings he hands his hockey opponents is a basis of his future progress. He is somewhat of a fusser too, and if you have ever seen any of his choices, you will agree that he is some "picker". One great asset he has is that he is always eligible in spite of the sleepy hours he spends in class, and the woebegone expression he carries at such times. Out of the throes of studies, however, Eric is one of our brightest stars, and we wish him luck.

WILFRED CRAIG LANE

"TUBBY"

Fitchburg

Fitchburg High School

1901; Pomology; Kappa Gamma Phi.

When Tubby joined our ranks he soon cast his lot with two of our now ex-members, and it seemed as if Tubby was the "goat" of this trio, which soon became inseparable. We now find Tubby to be the only survivor of this group but, if Darwin was right, we still have the best of the bargain. In his lonesome hours now Tubby may be found in the pool room playing quite a few "free" games, for they say he is clever with the cue. When spring arrives and nature calls, Tubby pulls himself outdoors, and then we find him trotting off his extra weight on the tennis courts.

ALLEN SANFORD LELAND

"AL"

East Bridgewater

East Bridgewater High School

1901; Animal Husbandry; Alpha Gamma Rho.

A Cupid he, with rosy cheeks and manner mild, a boy of grace and blushes wild that blazon forth at every chance—he's never asked a girl to dance!

Some day he'll wake, and then we'll know, that shyness there was but a fake; for many's the man who fools us all; this kind is oft the first to fall.

Of farms he's fond and gentle cows, and hopes sometimes to see the rows of pure-breds in their cleanly stalls—for a farmer's life to Leland calls.

KENNETH S. LORING

"KEN"

Melrose Highlands

Melrose High School

1902; Rural Sociology; Cross Country (1); Spring Track (1, 2); Class Hockey (2); Y. M. C. A. Secretary (2); Musical Clubs (1, 2, 3); Class Rifle Team (1); Lambda Chi Alpha.

When Ken joined our class he brought along with him a good voice and fiddle. He has used his voice to good advantage by tutoring the frosh in the art of serenading and by making the Glee Club, and by using his fiddle in the orchestra. Ken has shown his heels to many on the track, and when on the rink he wields a big stick. Some say he goes visiting quite often too, and he has been seen at a few informals. Ken fills in his spare evenings by going on deputation trips and using his talent to entertain some of our neighboring farmers.

1924 INDEX

NORMAN HOAR MACAFEE

"Mac"

Cambridge

Rindge Technical School

1902; Dairying; Alpha Gamma Rho.

What this fellow finds most boring about college life is that there is always some studying to be done; he still has hopes there will be a term when no studying is required. Mac is majoring in Dairying, although much of his time has been devoted to Botany 3. He deserves credit for retaining his fraternity pin along with such regular attendance at the Abbey. Mac delights in throwing biscuits at some unsuspecting individual in the "hash house", and in keeping the head waiter busy. Informals are his choice diversion.

EDWIN CLARK MILLER

"Ed"

Northampton

Northampton High School

1903; Chemistry.

From Purdue he came to us. What sorrow there must have been at that college when they learned that "their Ed" was to leave them! But sorrow must be taken philosophically — one's gain is too often another's loss. So he is with us, a student of chemistry. Being a commuter, he cannot take such an active interest in college affairs as he might. Those of us who do know him, see him as a big, good-natured, lazy lad with an ever ready snappy story to brighten our dull existence.

WALTER MARKLEY MORRIS

"Walt"

Philadelphia, Pa.

Mercersburg Academy

1900; Entomology; Alpha Sigma Phi.

Walter should never have been a student, but rather should be advisor to the faculty. There can be no doubt that the profs are riding him because they are envious of his great abilities. Walter is quiet in his appearance before the public, but as friend to friend, don't ever try to argue with him — you haven't got a prayer. There is a woman in the case and has been for three years. Ah! Walter, beware lest you meet your equal in fluency of speech and rapidity of thought, for therein lies your downfall! Don't worry too much, however, for we will have confidence in you and will back you to the limit.

STERLING MYRICK

"PAT"

Longmeadow

Springfield Technical High School

1902; Landscape Gardening; Class Football (1); Class Captain (1, 2); Varsity Football (2, 3); Senate (3); Junior Prom Committee; Lambda Chi Alpha.

The boy with the "debutante slouch", who swings a wicked pair of shoulders on the football field and the informal floor. "1924" has depended upon "Pat" to lead them every time a scrap started, and he has done it well. Pat's reputation as a woman hater was recently shattered. Smith College draws him with a powerful bobbed-hair magnet, and he is fast becoming a chronic "fusser". To think of such a sturdy "he-man" in such straits. A nature that never gets soured on the world, that is always cheerful, and that is full of courage and stick-to-it-iveness is Pat's, and he is "sterling" clear through.

CARL OLAF NELSON

"CARL"

Gloucester

Gloucester High School

1901; Pomology; Class Football (1, 2); Band (1); Spring track (1, 2); Alpha Gamma Rho.

This fair-haired youth sought the invigorating climate of Amherst to get away from the very thing that has made his home town famous, the traditional odor of Gloucester. If proximity to books could give a man an education Carl would be very learned; he spends much of his time at work in the college library. Try not your forensic abilities on this fellow if you would not argue in vain. Why Carl never went out for the varsity debating team is beyond the comprehension of many of us. Carl believes that there is something of value under the skin of the apple, so he has fallen in line with the pomologists.

ARTHUR CHESTER NICOLL

"ART"

Quincy

Thayer Academy

1902; Agricultural Economics; Baseball (1, 2); Hockey (2, 3); Class President (2); Lambda Chi Alpha.

We have in our midst one of those clean-shaven, blue-eyed men you read about in story books. There are two unmistakable accomplishments that "Art" has, namely — he's a perfect gentleman and a sound sleeper. We can easily understand the first, but how can he unerringly sleep so late those beautiful cool mornings when the finances of the country are dependent upon his prompt attendance to "Money and Banking"? Indeed it is sad. However, once fully awake, "Art" is keen for work and he is forever cheerful, even if his heart-breaking smile is so sad. "Art" is a fussier too, but he covers it up with that sedate little manner of his. It would pay you to know Arthur, for he is a warm friend and one of the strong points of the class.

1924 INDEX

HOWARD LESTER NORWOOD

Dorchester

Mechanics Arts High School

1896; Animal Husbandry.

Howard found the confinement of the Maine woods too unbearable, so he abandoned Orono for the great open of Amherst. Being of a quiet nature, Howard has not emphasized his presence by any loud ejaculations. However, he has proved a wizard in passing military; he wore the drill uniform one day and in that time sufficiently convinced the Major that he knew enough about drill to require no more training. His objective here at M. A. C. is Poultry Husbandry; he seems to have a fondness for chickens and it appears that this fondness is not limited.

RUSSELL NOYES

"Russ"

Newton Centre

Newton High School

1901; Landscape Gardening; Class Football (1); Class Baseball (1); Vice-President Class (1); Class Debate (2); Glee Club (2, 3); Band (1, 2, 3); *Squib* (1, 2, 3); INDEX (3); Interfraternity Conference (3); Orchestra (3); Theta Chi.

Sometime years from now when you go to your books and choose one marked INDEX — 1924, and opening its magic pages you come to bold pen strokes, and shadings of brushes dipped in ink — then you will think of Russ.

From his hand has come, for the major part of his college career, and will continue to come, the life of 1924 of M. A. C., living forever in his drawings.

Irrepressible jollity in his *Squib* drawings, sober humor with the touch of a master of expression in his INDEX work: — "Russ" has given to us the soul of the best years we shall ever know.

JOHN CLEARY PEARSON

Cambridge

Cambridge High and Latin School

1902; Entomology.

John rooms across from the Inn so that he can sleep five minutes later than the rest of the gang. Business through the day is so pressing that he needs every minute of sleep.

John is going to be a second Henry Ford. He has the most inventive mind anywhere within radius of his battered ark, and really it is too bad that the days of horse swapping are gone. Pearson in action would be a sight for the gods.

GORDON PETTINGER PERCIVAL

"PAT"

Medfield

Medfield High School

1902; Chemistry; Spring Track (1); Manager Class Track (2).

Pat tries hard to live down his reputation as a chemist, but he can not fool us. His real and consuming interest in life is chemistry. Some recreation he does take, however, making a rule not to study much between meals, or before retiring. Occasionally Pat rears himself from an intricate experiment or profound scientific discussion to tell a spicy tale, like the one about the girl who — but have Pat tell it. Good natured and obstreperous is Pat. We like him.

CHAUNCY VALENTINE PERRY

"VAL"

Waltham

Waltham High School

1900; Microbiology; Freshman Rifle Team; INDEX; Theta Chi.

12. And behold, there returned Valentine, bearing an air of superiority.

13. For his sojourn in the city had made him most worldly wise, in these things which he ought not to know, and ungodly dull in things which he should know.

14. Be it known in Aggie, oh ye of twenty-four, that here is a man of unruffled placidity, who toils not but always reads the *Saturday Evening Post*.

15. Do not as he doeth, for if thou do as he does, and hath not his personality, thou wilt be a fool.

16. But *he* is of the chosen friends of all.

JOHN TUTTLE PERRY

"JOHNNY"

Waltham

Waltham High School

1897; Botany; Pomology Club (2, 3); Poultry Club (2, 3); Alpha Sigma Phi.

"Bzz — bzz — bzz — you say that he drives a car, and my, isn't he good looking and so nice! Bzz — bzz — no! a wife and a little boy — isn't that extraordinary? He looks so young. And you say he was overseas. Isn't he just great? Yes, I know that he took lots of girls to ride when his sister was up here."

Above is the general line of talk when a Freshman co-ed sees John for the first time in chapel — for that's almost the only place anyone ever sees him. But who wouldn't go home if he could?

1924 INDEX

ARTHUR EDWIN PIERCE

"ART"

Newton

Newton High School

1896; Pomology; Six Man Rope Pull (2); Football (3); Phi Sigma Kappa.

Rough, tough, and likable is this happy sailorman, who sailed into our midst from the wilds of Dartmouth.

Art is as touchy as the primer on a shell, and has to be handled "just so" or he will sputter and make the whole region about him a total loss.

If ever anyone played in hard luck it is he, and with a broken leg and an attack of appendicitis in his Junior year, it seems as if he was almost "due for fair weather".

NANDOR PORGES

"PORGY"

Hyde Park

Hyde Park High School

1902; Chemistry; Class Football (1, 2); Football (2); Class Baseball (1); Class Basketball (2); Band (1); Class Track (1, 2); Class Relay (2); Delta Phi Alpha.

The old chem lab used to draw Porgy to its walls and now he feels lost. Of course, in the fall the football field is the magnet, but in the winter his skill at bullfisting must be renewed. Porgy is the only man who ever passed Doc Peters' course with only two experiments lacking. He will undoubtedly be a great chemist. "As the twig is bent —"

WALLACE F. PRATT

"WALLY"

North Hanover

Rockland High School

1901; Pomology; *Squib* (3); INDEX (3); Alpha Gamma Rho.

In spite of his small size Wally is not to be overlooked, as he passes most of his bigger brothers without half trying when it comes to studies. This does not insinuate that he is a terrible grind, for he is always on hand to cheer at Varsity games, and is ready to join in with the other fellows for a good time. Wally's greatest problem is to convince the monitors that he is in chapel, as his small size makes him so hard to see. By securing a bicycle he finally solved the difficulty of making his short legs cover the long distance between the Entomology Building and Stockbridge Hall in ten minutes.

1924 INDEX

JOHN GAMMONS READ

"JOHNNY"

Springfield

Springfield Technical High School

1902; Chemistry; INDEX (2, 3); *Collegian* (2, 3); Assistant Managing Editor of the *Collegian* (3); Alpha Sigma Phi.

Altho slight, Johnny is never lost in the crowd. He sees to that. He often feels that he will blow up if he cannot talk to someone. So wherever he is, there you may see him imparting his enthusiasm to some sympathetic ear. Johnny's charming personality, his sense of humor, and imagination ensure him plenty of friends—he need never "blow up". If he has a fault it is a very common one—romantic to the *n*'th degree. As a chemist though—his ambition is to be a writer of verse.

LEON ASHLEY REGAN

"REG"

Walpole

Norfolk County Agricultural School

1902; Agricultural Education; Assistant Manager Hockey (3); Baseball (2); Class Baseball (2); Alpha Sigma Phi.

While the class of '24 was waging its freshman war upon the campus, Reg was peacefully looking on as a special student. Favorably impressed by our victorious year, Reg decided that it was a class after his own heart. Accordingly, the boy agriculturist, was, through his extended studies at Norfolk "Aggie", able to sign up as a sophomore. Reg immediately became one of the North Dorn celebrities and Room One has vibrated many a time with his piercing yells.

JOSEPH SAGAR REYNOLDS

"JOE"

Attleboro

Pawtucket High School

1896; Animal Husbandry; Theta Chi.

The happiest fellow on the campus. Joe, with his wide grin and ever-ready joke can insure our speedy recovery from any glooms superinduced by disheartening contact with any of the gentlemen quite used to sending our spirits down with our averages. The "wisest cracks" need not be followed far for the author if Joe is in sight. His capacity for starting a "rough-house" is unlimited, but most of his time is spent at the Experiment Station or at the "M" building, bowling.

1924 INDEX

WINTHROP GORDON RHODES

"WIN"

Waban

Newton High School

1902; Pomology; Football (2); Class Football (1, 2); *Squib* (1, 2, 3); Theta Chi.

"Shake on that — you bet I will — that sounds familiar — guess we had better investigate!" — Be it class or college, scrap or play, the limit may be the roof and than Win will take the roof off. — He is found inside a roped-off ring on Razoo night — Kid Gore is talking — "look him over — the fightingest featherweight quarterback that ever snapped a B team into a plugging varsity". One more lap Win — you'll get him — you've got him!

Just glimpses of our class smile — "Win" Rhodes.

CHESTER SEWALL RICKER

"CHET"

Worcester

South High School

1902; Poultry Husbandry; Basketball (3); Alpha Sigma Phi.

A demure youth scarcely out of his 'teens and a woman-hater! Gifted with all the accessories of a lady-killer. Chet, nevertheless, is one of those strange creatures who fight shy of the fair sex. That he has an interest in feathered chickens is a matter of fact, his endeavor here being to learn the "ins and outs" of the poultry business. You see, his dad owns a poultry farm, so Chet has something definite to work for. As a waiter at the Hash House, Chet can sling hash with the best of them.

ELWYN JOSEPH ROWELL

"MIKE"

Amherst

Amherst High School

1900; Agricultural Economics; Alpha Sigma Phi.

"Sorry, got a date" is Mike's stock phrase. Anybody that can forget his clipped terseness after talking with him does so only because they remember he was in a hurry. Mike always has something else to do — and he always does it.

Mike edits and revises the catalogues each year for Smith and Mt. Holyoke, and can furnish — after bumming a cigarette — information upon any girl within a radius of twelve miles.

KENNETH ALLEN SALMAN

"KEN"

Needham

Needham High School

1901; Entomology; Class President (1); Class Football (1); Class Basketball (1, 2, 3); Varsity Football (2, 3); Class Captain (3); Interfraternity Conference (3); Lambda Chi Alpha.

Ken is one of the best liked and most respected members in our class. Our feeling toward him is a natural tribute to the inherent qualities of the man. Large in size and personality, he always stands out from the ranks. Good natured, but of strong character, successful in what he undertakes, but unspoiled by success, leading, but not domineering — is there any wonder that he has been class president, and is next year's football captain? Surely, here is a man, a man of whom M. A. C. and '24 have the right to expect great things.

CARLTON HILL SCHAFER

"CARL"

Ashfield

Sanderson Academy

1901; Entomology; Class Rifle Team (1, 2); Alpha Gamma Rho.

Gaze upon the countenance of this North Dormite! Carl has been a member of that illustrious group for three years, maintaining a status of dormancy, undisturbed by the changing tides of study. Should we ask this fellow for his motto he would reply: "Must I work? Oh, what a waste of time." If you want to know what a good scout "Billy" is, ask Carl; he has had intimate connections with him. Through his skill in riding bucking broncos and his ability in dissecting insects Carl hopes to get his B.Sc. Degree.

WENDELL FOLSOM SELLERS

Melrose

Melrose High School

1903; Entomology; Track (2); Alpha Gamma Rho.

The wonder of the age! What he doesn't know isn't worth knowing. He wears a pair of those studious looking goggles and always has a bag of books with him. Dare to get into an argument with him, and you're beaten before you start, and you're also liable to be the butt of his witty sayings. His spirit of stick-to-it-iveness is sure to get him somewhere.

1924 INDEX

HAROLD HENRY SHEPARD

"SHEP"

Phillipston

Templeton High School

1898; Entomology; Burnham Declamation (1); Track (2); Rifle Team (2); Kappa Epsilon.

Trying to absorb some of Professor Billy's line by osmosis, Shep had his home in the Physics Lab.

He is going to be a hugologist, and lecture to M. A. C. students "à la P. B. H." until he can perfect a new invention. You see, he is a crack rifle shot, and intends to patent a new rifle — "Shepard's Spray Gun — It gets the bugs."

Shep will eventually have a string of degrees as long as the names of his beloved insects, and if in the meantime we will only wait, he will make the college, the class and himself famous.

KENNETH WALLACE SIMS

"ADMIRAL"

South Boston

Mechanics Arts High School

1900; Animal Husbandry; Freshman Football; Track (2); Football (2, 3); Alpha Gamma Rho.

"Admiral" Sims descended upon us, his ticket stub reading "South Boston", but his appearance indicating Toonerville. Ever since by his colorful, potent and heavy line, he has been convincing us that he hails from some Arena del Toreadors. Because of his activities at inter-class encounters, 1925 many times threatened to create him emperor of the college pond, but a water-wise admiral always succeeded in warding off the enemy fleet.

RICHARD BURR SMITH

"DICK"

Greenfield

Brattleboro High School

1900; Agricultural Economics; Manager Six Man Rope Pull (1, 2); Business Manager 1924 INDEX; Assistant Manager Basketball (3); Interfraternity Conference (3); Phi Sigma Kappa.

President: "Nominations for class manager are in order."

Classmate: "I nominate Dick Smith."

President: "All those in favor." Aye! "Those opposed —"

Although this has never happened in a class meeting, it might be a good plan, for as a manager Dick is right there. He started in as manager of our freshman rope pull and has ended up as manager of varsity basketball. Dick started in as a member of '23, but soon realized his mistake and fell in with '24, and we have kept him ever since.

CHARLES WASSER STEELE

"CHARLIE"

Marblehead

Marblehead High School

1902; Poultry Husbandry; Class Treasurer (1); Manager of Track (3); Lambda Chi Alpha.

Charlie did a little pep work himself and certainly was becoming proficient at it. His ease of motion may be ascertained in his skill as a bowler. For many moons he held the record on the "M" building alleys. Charlie "ain't sayin' nothin'" most of the time, but all of the time he's mixed up in class and college functions. Your abilities lie in your confidence, and we have great confidence in you, Charles. How's for establishing that record, changing your sweater, or buying a pair of long trousers? No matter what radical changes you make we're all here to back them.

ROBERT ERNEST STEERE

"BOB"

Chepachet, R. I.

Moses Brown School

1902; Pomology; *Collegian* (2, 3); Kappa Sigma.

Whether it is 7.29 (chapel at 7.30) or nearly midnight, little "coffee and" can smile with your order as you lean over the counter at the Inn. Our model wooden soldier in the army, and business man de luxe of the *Collegian* and the Inn, Bob nevertheless gets around to frivolling once in a while, but usually goes home to do it, for college festivities see him very seldom. Maybe he is a woman hater. But so many of them are not exactly afraid of the girls, they are just careful. And Bob is nothing if not careful.

HAROLD DUDLEY STEVENSON

"STEVE"

Camden, Maine

Camden High School

1901; Landscape Gardening; Varsity Track (2); Glee Club (2); Y. M. C. A.; Honor Council (2); Varsity Cross Country (3); Alpha Gamma Rho.

This is a neat little parcel, well done up, and if he has not size, the quality is there. "Steve" may be little and compact, but maybe he hasn't speed. He wears out the track tearing around it, and is one of the hash-house's best waiters. While of a nature that is carefully boxed up with the lid on tight, when he really gets going he gets what he is after. Eventually he will break out of his shell and let us see him. It is a shame to keep such a good thing secluded and buried under books and C. A. duties. But then that kind always gives us the greatest surprise. We wait, we wait!

1924 INDEX

CHARLES JAMES TEWHILL

"CHICK"

Florence

Northampton High School

1899; Chemistry; Class Secretary (1); Vice-President (2); Class Football (1, 2); Class Hockey (1, 2); Class Captain (1); Football (2); Hockey (2, 3); Soph-Senior Hop Committee (2); Interfraternity Conference (3); Senate (3); Chairman Junior Prom Committee (3); Alpha Gamma Rho.

"Chick" just ran over from the toothbrush town to drop into the ranks of 1924 in order to round off a few of the rough corners. He spent his freshman year as a member of the "Farmhouse Quartet" and in spite of the many diversions surrounding that life he managed to escape several finals. Besides being a pretty good ivory artist, "Chick" has shown his value to both the football and hockey teams and he shows promise of a two-letter man for '24. Home seems to have a strong attraction for "Chick" on many week-ends, but we think it is some other family he visits.

CLARENCE PERCY THORNTON

"PERK"

Amherst

Amherst High School

1903; Entomology; Alpha Gamma Rho.

From yonder in the fields of Pelham, a mere boy came to swell the ranks of '24. Although he bore that famous name of Clarence we preferred to call him "Perk". The fact that he always liked drill is recognized by anyone who had the opportunity to hear his strong comments in ranks. Doc. Fernald's bug-chasing course last spring seems to have impressed Perk so favorably that he has decided to look into the make-up of these strange living things. Be careful, Perk, not to be mistaken for an insect yourself during your entomological examinations.

THOMAS VARNUM, JR.

"TOM"

Lowell

Lowell High School

1901; Floriculture; Phi Sigma Kappa.

"Tom" is a very quiet and sedate member of our illustrious class, but in spite of this characteristic he has had a few narrow escapes. These escapes have not been on the athletic field, but "Doc" Torrey seems to be the seat of the trouble. In spite of this we find that Tom is quite a shark on herbarium-making so we don't see why he should not be a successful florist.

JUDSON NEWCOMBE WALKER

"COLONEL"

Marlboro, N. H.

Marlboro High School, N. H.

1892; Poultry Husbandry.

The "colonel" received his name from a well-loved contemporary. He is an ex-gob. Would-be hard-boiled? Wise line? Not in the least. One would never suspect a nautical past of this serious, hard-working, kindly soul. He is a man of determination and courage, ever ready to stand against the most ferocious of profs, ever ready to hurl question after question until he is satisfied that the professor does not know his business. We hope to see the "colonel" in the future conquering the world of Poultry Husbandry with the same spirit that has enabled him to overcome all obstacles to his educational career at M. A. C.

ALBERT EDMUND WAUGH

"AL"

Amherst, Mass.

Amherst High School

1902; Pomology; Class Treasurer (2); Class Smoker Committee (2); *Collegian* Board (3); Kappa Sigma.

Enter the Duke of the iron chin. We think Al must have visited an old museum while on one of his numerous Boston journeys, for his chin-in-hand pose certainly is reminiscent of the "Thinker". Don't ever let him get started on a topic or he will talk you blind. The facts are usually lacking, but there is no doubt he gets away; everything considered. Lucky Strike certainly struck a fortunate blow when they hit upon Al. I don't know his maximum number per day, but I'll bet he rakes off thirty wallops per, at least. Amherst is too small for you, Al. Strike out and conquer, for with your line you will encircle the earth — on a freight car!

HOWARD ERLE WEATHERWAX

"ERLE"

Greenfield

Greenfield High School

1899; Landscape Gardening; Business Manager *Squib* (2, 3); Class Baseball (1, 2); Class Basketball (1, 2); Chairman Class Smoker Committee (2, 3); Landscape Club; Roister Doisters (1, 2, 3); Academic Activities Board (2, 3); Theta Chi.

P. T. Barnum's line, P. T. Barnum's business sense; — but Barnum never could have stood this "Weather" — he would have gone down in a flood of words. As versatile as a weather-vane, as changeable as the New England climate, this superproduction of "Beating the World" has shown in many places. School, off to the Navy to get toughened up, then to college with a holystoned finish — only to have his armor pierced over the heart. His sign — "The College Store — *Squibs* on Sale Here"; E. Weatherwax, 1924.

1924 INDEX

SAMUEL HENRY WHITE

Orange

Orange High School

1902; Botany; Manager Class Hockey (1); INDEX (3); Lambda Chi Alpha.

A botanist we must have to complete our list, and, although toward the end of the book, Sammie is well toward the top when it comes to studies, and to a departmental list of our future professors. But won't the embryonic botanists of the future have a fine time taking notes from Sam's rapid-fire lectures? Our money will be on our classmate, even when pitted against a rapid-firer like Doc. Torrey.

CHESTER EDGERLY WHITMAN

"CHET"

Milton, N. H.

Suffield School

1903; Pomology; Class Basketball (1, 2); Six Man Rope Pull (2); Class Football (2); Manager Class Baseball (2); Glee Club (3); Phi Sigma Kappa.

To know Chet is the only way to appreciate him. Whit has an abundant flow of rippling conversation and it is indeed a pleasure on a dreary day to walk across campus with him, drinking in his sunny words. He is mixed up in all class affairs, except co-eds, and much of the success of 1924 is due to "him and his pep". You can't knock Whit in any respect, and we might console by saying "Cheer up, old man, a thirty-mile hike will make you knock-kneed at forty."

RICHARD AUGUSTINE WHITNEY

"DICK"

Westminster

Fitchburg High School

1900; Entomology; Interfraternity Conference (3); Rifle Team (2); Kappa Sigma.

Dick was a delayed entrant into the class of 1924, but joined us the latter part of our freshman year. He soon caught the eye of Colonel Walker, and with his former training as a coon hunter he became a frequent visitor to the rifle gallery. In our sophomore year he was a member of our crack rifle team, and now he has an RMT to adorn his chest. Dick has chosen "Ent." as his major and if his shooting eye keeps on improving the poor bugs will meet up with a sad fate.

1924 INDEX

WILL A. WHITNEY

"BILL"

Taunton

Taunton High School

1902; Botany.

One of the scientists of our distinguished college! Bill helped us through some of our difficulties in Botany '25, and the chances are good that he will create difficulties for the class of 1932 in their tedious road through a future Botany. Self-possessed at all times, viewing the world with calm blue eyes and a lower lip thrust out in an attitude of making a microscopic and derogatory consideration — we hope that Bill will go easy on the ambitions of embryo botanists who may later fall into his hands.

JAMES LOWELL WILLIAMS

"Jim"

Sunderland

Pinkerton Academy

1901; Pomology; Class Football (1); Aggie Revue (1, 2); Roister Doisters (1); Musical Clubs (2, 3); Quartette (2); Class Treasurer (1); Informal Committee (3); Inter-Fraternity Conference (3); Rifle Team (2); Junior Prom Committee (3); Q. T. V.

Jim is one of our commuters, but where he commutes to or from we are only able to guess. He usually stays in the New England States, but New York can boast of his presence for at least one week-end out of twelve. Jim came here under the terrific handicap of having to uphold a reputation established by a list of ancestors that would make a genealogist gnash his teeth with envy. There can be no doubt that Jim has done his duty well, even outdoing his grandfather in the number of Informals attended. Jim has a voice and a face that are alike irresistible to the opposite sex, and he is able to hold his own with any "pulse quickener," be she ever so learned.

EARL MAYNARD WITT

Belchertown

Belchertown High School

1901; Agricultural Education; Alpha Gamma Rho.

Belchertown sends another one of her sons to indulge in the agricultural mysteries. Heeding the call of the state for good teachers, Earl has had his name added to the Aggie Ed. roll. Should the educational authorities establish a department of story telling in the public schools, Earl would have no reason to worry about employment the rest of his life. If you want to hear some good, clean stories, go to this fellow. Once has he the smokestreaming from his pipe, he can depict the whims and shams of life with singular ability.

RUTH MILLICENT WOOD

"RUTH"

North Andover

Essex County Agricultural School

1903; Agricultural Education; *Collegian* (1, 2, 3); Class Historian (2, 3); President Y. W. C. A. (2); Chairman of the Religious Work Committee of Y. W. C. A.; Delta Phi Gamma.

When anyone says that co-eds hurt the standards of the college, we wonder if he knows Ruth Wood. Ever since '24 made its appearance upon the campus, Ruth has led her class in scholarship, and promises to earn a position in the ranks of Phi Kappa Phi. Having proven her ability as class historian in her freshman year, the class elected her to fill the office permanently. Although "Billy" prides himself in "getting" the co-eds, Ruth fooled him and got out of his final. Her spare hours have been occupied as librarian. As a girl, Ruth is willing, friendly and accomplished.

WILLIAM WILSON WOOD

"BILL"

Barre Plains

Barre High School

1902; Pomology; Vice-President (1); Honor Council (2, 3); Chairman Banquet Committee (1); INDEX (3); Glee Club (3); Pomology Club; Theta Chi.

Serenity, tall, handsome, efficient and always cheerful, took up its abode in this modest young Greek statue, and has never found a better place. Anybody looking for a husband who has no visible faults, and is vouched for by the class of 1924 as the perfect mate, is referred to "Woody". He may have come from the "tight little isle", but never was a heart more generous, more loyal or more friendly. Surely he will be written as "one who loves his fellow-men".

ROBERT HUGO WOODWORTH

"WOODY"

Newton

Newton High School

1902; Botany; Winter Track (1, 2); Spring Track (1, 2); Mandolin Clubs (1, 2); Interclass Athletic Council (1); Six Man Rope Pull (Capt.) (1); Class Relay (1); Class Football (2); Soph-Senior Hop Committee (2); Class President (2); Senate (3); Junior Prom Committee; Phi Sigma Kappa.

As mellow-natured as the notes of his saxophone, as pleasant as the sound of his banjo, and as snappy as his performance on traps or marimba — this is "Woody". A smile coupled with his natural catchy "line" keeps him welcome in every group. And a combination of music and cheerfulness have made him a necessity at college dances. He keeps his saxophone wind hy going out for track every season.

The Class History

WHEN the present Sophomore class matriculated in September 1921, the forecast was "unsettled, with variable winds." That forecast has materialized, for in drawing a retrospect of yester-year one transcending phenomenon enshrouds everything. This "phenomenon" was the gruesome harvest reaped by the "scythes of knowledge." Of an original class membership of 167, only 87 returned who had successfully conquered the ogre of botany, geology, and "math."

Excepting the "poster scrap," "razoo" night, and the freshman cap bon-fire victories, the freshman year is also remembered by its numerous defeats in inter-class contests with 1924.

September 1922 saw the return of a depleted class but possessed with a devout ambition to vindicate her freshman career. Once again 1925 won the poster scrap. 1925's adherents of the Marquis of Queensbury rules humbled 1926's stalwart representatives at "razoo" night. Exposing its latent Herculean strength, the sophomores vanquished the "plebeians" in the "night shirt parade."

Although 1925 suffered its first reverse at the sixty-man rope-pull, yet it was not undaunted. Possessed with a renewed vigor and executing a master stroke of cunning strategy, its six-man rope-pull team easily won this event. Then with only a two days' preparation, the sophomore gridsters fought the "frosh" eleven in a hectic battle and renewed its glory by holding its well-seasoned opponents to a 0 to 0 score.

1925 has done well in its struggle for vindication! It looks forward to the future with haughty ambition confident that it will continue the noble work which its standard bearers have so far accomplished. The "survival of the fittest" has worked wonders with its massacred ranks. With high hopes for the future, 1925 will make M. A. C. proud of her, although at the present time she is the cynosure of criticisms.

1924 INDEX

The Class

- Armstrong, Bradford
Emerson Institute; 1901; Q. T. V.; Glee Clubs (1).
Kensington, Maryland
- Atkins, Harold K.
Dickinson High School; 1902; Sigma Phi Epsilon; Manager Class Basketball (1).
Wollaston, Mass.
- Barnes, Adrian D.
Weymouth High School; 1903; Q. T. V.
South Weymouth, Mass.
- Batal, James
Lawrence High School; 1901; Kappa Epsilon; Varsity Debating (1, 2); Class Debating (1, 2);
First Prize, Flint Oratorical Contest (1); Second Prize, Burnham Declamation Contest (1).
Lawrence, Mass.
- Bean, Francis I.
Haverhill High School; 1901; Q. T. V.
Bradford, Mass.
- Benoit, Helen A.
Williamsburg High School; 1904.
Amherst, Mass.
- Binner, Roger S.
Malden High School; 1896.
Malden, Mass.
- Bray, Ralph Hastings
Framingham High School; 1902; Sigma Phi Epsilon; Class Baseball (1); Class Relay (1).
Framingham, Mass.
- Burhoe, Sumner O.
Ashland High School; 1902; Track (1).
Ashland, Mass.
- Cahill, Carl W.
Newburyport High School; 1902; Kappa Sigma; Varsity Baseball (1); Varsity Track (1).
Newburyport, Mass.
- Casey, Alice R.
M. B. C. Durfee High School; 1902; Delta Phi Gamma.
Fall River, Mass.
- Cassano, Joseph
Essex County Agricultural School; 1900; Q. T. V.; Football (1).
Groveland, Mass.
- Church, George L.
Dorchester High School; 1903; Alpha Gamma Rho; Burnham Declamation Contest (1); Roister
Doisters (1); *Collegian* (2).
Dorchester, Mass.
- Cleaves, Leighton G.
Gardner High School; 1904; Phi Sigma Kappa; Class Football (1); Class Hockey (1); Glee Clubs
(2).
Gardner, Mass.
- Cooke, Robert G.
Pittsfield High School; 1903; Alpha Sigma Phi.
Richmond, Mass.
- Corwin, Emil J.
East Boston High School; 1903; Delta Phi Alpha; *Collegian* (1); Class Baseball (1); Class Track
(1); Soph-Freshman Debate (1); Aggie Revue (1).
East Boston, Mass.
- Crosby, John S.
Arlington High School; Phi Sigma Kappa; Class Baseball (1).
Arlington, Mass.

1924 INDEX

- Currier, Leland L. Marblehead, Mass.
Marblehead High School; 1904; Alpha Gamma Rho; Class Hockey (1).
- Davis, Osborne O. Belchertown, Mass.
Belchertown High School; 1902.
- Dean, Cecil W. West Palm Beach, Florida
Duval High School; 1901.
- DeVito, Dominick Roxbury, Mass.
National Farm School; 1899; Kappa Epsilon.
- Duffy, Leo F. Springfield, Mass.
Springfield Technical High School; 1896; Kappa Epsilon; Chairman Banquet Committee (1).
- Farrington, Linwood H. Chelmsford, Mass.
Chauncy Hall School; 1901; Lambda Chi Alpha.
- Ferranti, Edmund T. West Bridgewater, Mass.
Howard High School; 1901; Lambda Chi Alpha; Class Basketball (1); Varsity Football (2).
- Fish, Donald O. Amherst, Mass.
Amherst High School; 1902; Kappa Sigma; Class Basketball (1, 2); Class Football (2); Class Baseball (1).
- Gilbert, Chauncey M. North Amherst, Mass.
Phillips Exeter; 1882.
- Gleason, Harold Albert Chester, Mass.
Pittsfield and Springfield High School; 1901; Phi Sigma Kappa; Class Football (1); Varsity Football (2).
- Gordon, Samuel F. Ipswich, Mass.
Ipswich High School; 1903; Lambda Chi Alpha.
- Gordon, Solomon Boston, Mass.
English High School; 1903; Delta Phi Alpha; Class Football (1).
- Grover, Walter C. Bernardston, Mass.
Powers Institute; 1903; Phi Sigma Kappa.
- Guterman, Carl E. F. Springfield, Mass.
Central High School; 1903; Kappa Sigma; Class Football (1); Manager Class Baseball (1); Class Treasurer (1); Freshman-Sophomore Debate (1); Varsity Debating (1, 2).
- Haeussler, Gilbert J. Springfield, Mass.
Technical High School; 1904; Kappa Sigma; Roister Doisters (1, 2); *Collegian* (2).
- Hale, Laurence N. South Glastonbury, Conn.
Glastonbury High School; 1904; Phi Sigma Kappa; *Squib* (1, 2); Class Football (1); Class Basketball (1).
- Hanscomb, George W. Boston, Mass.
Provincetown High School; 1902; Lambda Chi Alpha.
- Harris, Clarence A. Utica, New York
Utica High School; 1901.
- Hopkins, David Medford, Mass.
Medford High School; 1900.

1924 INDEX

- Hurley, Everett H. Northampton, Mass.
Northampton High School; 1902; Sigma Phi Epsilon; Class Basketball (1); Class Baseball (1).
- Hyde, John W. Amherst, Mass.
Amherst High School; 1902; Theta Chi.
- Ingraham, Edward F. Millis, Mass.
Millis High School; 1902; Sigma Phi Epsilon; Class Treasurer (2).
- Jack, Melvin C. Amherst, Mass.
Lisbon Falls, Maine, High School; 1899; Sigma Phi Epsilon.
- Kakavas, James C. Lowell, Mass.
Lowell High School; 1899.
- Keith, Lewis H. Bridgewater, Mass.
Bridgewater High School; 1904; Kappa Sigma; Manager Class Football (1, 2); Interclass Athletic Council (1); *Collegian* (1, 2); Assistant Manager Baseball (2).
- Kilbourn, James S. Cambridge, Mass.
Cambridge High and Latin; 1902; Sigma Phi Epsilon; Class Hockey (1, 2, 3); Varsity Football (2, 3).
- Lacey, John S. Holyoke, Mass.
Rosary High School; 1896.
- Lavallee, L. Palmer Worcester, Mass.
Worcester Academy; 1895; Track (1).
- Lewis, Donald W. Stow, Mass.
Mount Hermon School; 1903; Lambda Chi Alpha; Six Man Rope Pull (2); *Collegian* (2); Class Football (1).
- Logan, Hazel W. Boston, Mass.
Arlington High School; 1902; Delta Phi Gamma; Roister Doisters (2).
- Lord, John F. Methuen, Mass.
Methuen High School; 1902; Alpha Sigma Phi.
- Love, Andrew W. Auburn, Mass.
South High School; 1903; Alpha Gamma Rho; Class Baseball (1).
- Lunt, Samuel W. West Falmouth, Maine
Westbrook Seminary; 1903; Kappa Sigma; Class Baseball (1).
- Mahoney, Walter F. Millville, Mass.
Uxbridge High School; 1902; Alpha Sigma Phi.
- Marx, Hubert J. Holyoke, Mass.
Holyoke High School; 1902; Kappa Epsilon; Class Football (1).
- McGeoch, Charles R. Providence, R. I.
Mount Hermon; 1899; Kappa Epsilon; Class Football (1); Varsity Football (2).
- McGrath, Thomas E. Holyoke, Mass.
Holyoke High School; 1903.
- Meserve, G. Donald Hudson, Mass.
Hudson High School; 1903; Lambda Chi Alpha.

1924 INDEX

- Mouradian, Garabed K. Bridgewater, Mass.
Bridgewater High School; 1902; Q. T. V.; Class Sergeant-at-Arms (1); Class Football (1);
Class Basketball (1); Six Man Rope Pull (1).
- Moxon, David Holyoke, Mass.
Holyoke High School; 1901; Kappa Epsilon; Class President (1, 2); *Collegian* (2).
- Nelson, Paul R. Holyoke, Mass.
Holyoke High School; 1903.
- O'Connor, Arthur M. Revere, Mass.
Revere High School and Huntington School.
- Oliver, Charles F., Jr. Brockton, Mass.
Brockton High School; 1903; Lambda Chi Alpha; Class Football (1); Class Basketball (2)
Collegian (1, 2).
- Parker, Donald L. North Adams, Mass.
Drury High School; 1902; Sigma Phi Epsilon; Musical Clubs (1, 2).
- Parsons, Gilbert J. Melrose Highlands, Mass.
Melrose High School, 1901; Q. T. V.; Glee Clubs (1, 2).
- Peirce, Veasey Dorchester, Mass.
Boston Latin High School; 1903; Phi Sigma Kappa; Class Track (1); Class Relay (1); Class
Hockey (1); Varsity Track (1).
- Peltier, Xavier P. Spencer, Mass.
Spencer High School; 1902; Q. T. V.
- Poey, Frederick Havana, Cuba
Institute de la Habana; 1899; Alpha Sigma Phi.
- Root, Frank E. Bernardston, Mass.
Powers Institute; 1903; Alpha Gamma Rho.
- Ross, Charles F. Lee, Mass.
Lee High School; 1904; Sigma Phi Epsilon.
- Ross, Donald E. Berlin, Mass.
Hudson High School; 1896; Alpha Gamma Rho; Class Football (1).
- Rowley, Harold F. West Wareham, Mass.
Wareham High School; 1905; Class Baseball
- Samuels, Samuel B. Bronx, New York
National Farm School; 1900; Delta Phi Alpha; Class Basketball (1); Class Baseball (1); Varsity
Basketball (2).
- Sazama, Robert F. Northampton, Mass.
Northampton High School; 1903; Alpha Sigma Phi.
- Seaver, Russell B. East Bridgewater, Mass.
East Bridgewater High School; 1903; Lambda Chi Alpha; Class Basketball (1); Six Man
Rope Pull (1).
- Sheridan, Irwin S. Mansfield, Mass.
Mansfield High School; 1904; Alpha Gamma Rho; Football (2).
- Shmway, George F. Monson, Mass.
Technical High School, Springfield; 1901; Class Football (1); Class Baseball (1).

1924 INDEX

- Simmons, Carl L. Kingston, Mass.
Duxbury High School; 1904; Q. T. V.; Class Basketball (1); Class Baseball (1).
- Simpson, Gilbert Holyoke, Mass.
Holyoke High School; 1904.
- Slown, William Arnold Shelburne Falls, Mass.
West Haven High School; 1902; Class Track (1).
- Smith, Emily G. Lee, Mass.
Lee High School; 1902; Delta Phi Gamma; Women's Student Council (2).
- Sprague, Dudley DeR. Melrose, Mass.
Melrose High School; 1902; Sigma Alpha Epsilon; Class Football (1); Class Hockey (1).
- Stephan, Edith H. Lawrence, Mass.
Lawrence High School; 1904; Girl's Glee Club (1, 2); Y. W. C. A. (1, 2).
- Stone, George L. Montello, Mass.
Brockton High School; 1900; Kappa Epsilon.
- Taube, Gustave New York City
National Farm School; 1900; Delta Phi Alpha.
- Taylor, Milton W. Chatham, Mass.
Chatham High School; 1904; Kappa Sigma; Class Football (1); Class Hockey (1); Class Baseball (1); Varsity Football Squad (2).
- Templeton, Robert J. Jamaica Plain, Mass.
West Roxbury High School; 1905; Lambda Chi Alpha.
- Tufts, Robert W. North Weymouth, Mass.
Weymouth High School; 1901; Kappa Gamma Phi.
- Ward, Gordon H. Englewood, New Jersey
Englewood High School; 1903; Alpha Gamma Rho; Boston Speaking Contest (1); Freshman Hockey (1); Freshman Debating Team (1); Varsity Debating Team (1).
- White, Earl M. Abington, Mass.
Abington High School; 1902; Kappa Sigma; Six Man Rope Pull (1); Class Hockey (1); Class Relay Team (1); Manager of Class Track (1).
- Whittum, Walter W. Springfield, Mass.
Central High School; 1902; Kappa Gamma Phi.
- Wilcox, Stanley D. Springfield, Mass.
Central High School; 1902; Kappa Gamma Phi.
- Wilder, Frank H. Sterling Junction, Mass.
Leominster High School; 1903; Phi Sigma Kappa; Class Baseball (1); Aggie Revue (1).
- Woodbury, Samuel L. Springfield, Mass.
Central High School; 1903; Alpha Gamma Rho.
- Wright, Horace A. Dayton, Ohio
Moraine Park School; 1901; Sigma Chi.
- Zwisler, Frederick F. Holyoke, Mass.
Holyoke High School; 1902; Kappa Epsilon; Class Football (1); Class Baseball (1); Varsity Football Squad (2).

FRESHMEN

The Freshman Class

Officers

<i>President</i>	James Bower
<i>Vice-President</i>	Herbert Grayson
<i>Secretary</i>	Clifford W. Avery
<i>Treasurer</i>	Harry E. Clough
<i>Sergeant-at-Arms</i>	Robert W. Burrell
<i>Captain</i>	Edward T. Murphy
<i>Historian</i>	James R. Williams

The Class History

ALTHOUGH the class of '26 is merely a means to an end for the faculty, and although many and varied have been the experiments inflicted upon it, 85 per cent of the class entered in September have stood the test and are now present or accounted for.

Many moons ago these same unsophisticated youths were subjected to untold tortures by the honored yet barbarous class of '25. These mighty warriors seemed to take great pleasure or rather childish delight in inflicting punishments and removing night-shirts (somewhat forcibly). A few days later, however, '26 took a stand and dragged the unfortunate "Sophs" through the pond and later made a clean-up in the interclass track meet. The Freshman football team did very creditable work, tying two games, winning one, and losing two games. The hockey team has upheld the standards set by the other class teams and has worked loyally for M. A. C. Twenty-six has not been idle in the Academic activities either and is represented in the musical club, in dramatics, and in the publications. The "Aggie Revue" owes part of its success to the play written and acted by men of '26.

The Class

ADAMS, KATHERINE P.	North High School	Worcester
AGUILERA, LEOPOLDO S.	Lawrenceville	Havana, Cuba
ALBERTINI, PAUL F.	Somerville High School	Billerica
ALDRICH, GEORGE S.	Dean Academy	Millville
AMES, WINTHROP A.	Tisbury High School	Vineyard Haven
AMSDEN, FESTUS G.	Athol High School	Athol
AMSDEN, THEODORE M.	Athol High School	Athol
ANDERSON, LESLIE C.	East Bridgewater	East Bridgewater
ANTHONY, STEWART H.	Manchester High School	Manchester
ASHE, THOMAS E.	Holyoke High School	Holyoke
AVERY, CLIFFORD W.	Arms Academy	Colrain
BACKUS, HIRAM H.	Barnstable High School	Centerville
BAKER, FRANCIS E.	Chauncy Hall School	Hopkinton
BAKER, FREDERICK A.	Technical High School	Springfield

The Purpose of Athletics at M. A. C.

THE Department of Physical Education believes that athletics should be a permanent part of the student's educational program; that he should be able to take care of himself physically as well as mentally. With this in view, M. A. C. has for years had a coaching staff which is a regular part of the instruction forces of the college, a feature which was heralded as a new scheme greatly to be desired, and adopted by the New England College Conference on Intercollegiate Athletics last winter, to go into effect next September. M. A. C. has built up an admirable system whereby every student, if he so desires, can go out for whatever he is interested in, in the way of sports. Director Hicks proposes "by voluntary participation" to get every student to avail himself of opportunities to participate in collegiate and intramural athletics, and with this as his standard, he has succeeded in getting the good-will of the student body. Compulsory sports have always been frowned upon as being worse than no sports at all, and the regular class exercises of the freshman and sophomore years, lacking gymnasium equipment, are made up of games of a sort to interest the men into pursuing them further at their own desire.

The mention of lack of equipment brings up a question which is one of great familiarity. The department cannot give the best that it possibly can to the students in the position in which it now finds itself, but there is no question that a new building, with apparatus, is only a question of time. This new "gym" will not be known as a Gymnasium, however, but as the Building of Physical Education, for it will house all those activities, apart from gym exercises, which go to make up college, class and fraternity sports, presenting a fine opportunity for a broad, well developed physical education.

BASBALL

The Season of 1922

ALTHOUGH the 1922 baseball season could not quite compete with the previous season, when Aggie won thirteen games out of seventeen starts, it is worthy to note that the team won well over fifty percent of its games. This places the season well above the average, for it is only recently that Aggie has ranked high in baseball circles. It is also interesting to observe that a college the size of Aggie is able to get games with the larger institutions such as Harvard, Boston University, Dartmouth, Boston College, and Syracuse. It seems to be the inborn ability of every Aggie team to "stage a come-back" at some time during its season, and it is this that keeps us in the running with these bigger college teams. Great credit is due "Kid" Gore and "Hub" Collins for their sterling work in whipping up and maintaining a team that could produce such a splendid record.

The season was started with a "bat-fest" at Wesleyan, Aggie coming out on top with the score of 13-10. Cold weather and a high wind account for the high scoring on the part of both teams. The year started with a win, five runs being scored in the first half-inning of play. After the third inning either one team or the other scored in every inning, but Aggie led throughout.

The next game, with Connecticut, was a peach, but Aggie was unable to bring across the winning tally needed in the ninth. "Jules" Kroeck made a great attempt to start a rally in the sixth when he pushed out the longest home-run ever made on the Storrs diamond. Only those who saw it can appreciate it.

Trinity was the next victim to the tune of 10-2, but the same week Harvard had its fling, tallying nine times to our one on Soldiers Field. As "Kid" says: "there is always one inning that sounds defeat for a team," and Harvard certainly found that one. Harvard scored one run in the first inning and Aggie tied it up in the second. Everything looked rosy until "Jocko" Conlon, the shifty Harvard captain and short-stop, connected for a homer straight over third base with the sacks filled.

1924 INDEX

Two more home runs came in that inning and from then on the game was a peach but Aggie could find no holes in the air-tight Harvard team.

The following week Aggie put up a good game against Dartmouth, leading the Green up to the sixth, when they found themselves in that fatal big inning. Dartmouth scored four more runs in the next two innings and romped home with the bacon at 8-4. Cahill, the Aggie freshman third baseman, featured with a triple which was duplicated by "Huck" Sargent.

One game to be remembered was the High School Day game with Connecticut Aggie. It was the first home game of the season. "Hub" Collins was on the mound and pitched a fine game, ending it by fanning three men in a row. The Aggies found themselves at the very start when Sargent got by on a shortstop muff, was forced on Collins' grounder, and the latter scored on a triple by Kroeck. Connecticut tied things up in the forth by a base on balls, a hit and long sacrifice by Laubscher. The Aggies threw away chances in the same inning when two were on and none out, but an attempted steal went wrong and Brunner fanned. In the sixth, Connecticut took the lead on a base on balls, a sacrifice and a single. The Aggies won the game in the same frame, when Collins singled, stole second and took third on a poor throw. Kroeck was hit and made second. Barrows fanned and "Doc" Gordon was retired for bunting on a third strike. Then with the count 2 and 3 on Brunner, Collins started to steal home, and Laubscher heaved the ball over the catcher's head to let two runs in. There was no further scoring during the game.

The tide was still favorable the next week when Aggie took on the Sabrinas on Alumni Field and grabbed a victory of 3-2 from what looked like certain defeat. It was in the sixth again that bunched hits by Barrows, Moseley, Sargent, and Kroeck pulled the game out of the cellar.

That same week-end was a fatal one, Aggie losing a 6-4 game with B. U. on their field and falling before Tufts by 13-3 at Medford. Kroeck did a good job at Boston, but the winning runs were not forthcoming, and Collins found his backing insecure against the snappy Tufts nine.

The rest of the games were played at home, five out of the six being victories, Boston College being the sole victor out of the opponents.

Probably the most notable victory of the season was that against Amherst on the 24th of May. Few of us will forget it. The day was perfect and a close game was expected. Naturally everyone was there and it is doubtful if Pratt Field will ever be treated to such an innovation of Aggie hits. They came fast and furious, every inning was a big one, and every player got his share of bingles. Amherst had several chances to score but was unable to tally until the seventh. It is hardly fair to blame Lecte, the Sabrina moundsman, for the number of runs scored. He pitched a wonderful season, but that day was an "Aggie Day" and Aggie got it 12-1.

The season closed with a victory over Northeastern in the proper Aggie manner of 8-4.

1924 INDEX

The team as a whole deserves great credit for its work, but particular mention should be made of several of the players. Kroeck was ever fine whether on the mound or on first base. Collins, Sargent, and Gordon were supreme in the garden, very few balls getting away from those veteran outfielders. Cahill on the "hot corner" did a beautiful job of it the whole season, the team feeling sure that the frosh could handle all that passed over or near third base. Barrows was faultless as a back-stop; it being his first attempt at college catching was apparently no reason for him to be timid or insecure. He showed some great headwork and it will be a pleasure to watch him in action again the next season.

The Scores of the Season

GAMES	DATE	WHERE PLAYED	M.A.C.	OPP.

TRACK

The Season of 1922

TRACK in 1922 experienced a very creditable season, good teams being developed under Coach Derby. Several men of unexpected ability were brought to light, the interclass track meet being instrumental in this. The increased interest shown in track points to a promising future for track at M. A. C.

The relay team participated in two meets during the winter. One was with New Hampshire at the B. A. A. meet in Boston, February 4. In this race the team lost to New Hampshire by a scant six yards. The other meet was with Boston University at the K. of C. meet. This was a hotly contested race, the team losing by one yard. It had been expected that it was to have been a return race with New Hampshire, but it was found necessary to substitute B. U. The men comprising the team were Sullivan, MacCready, L. Woodworth, and Acheson.

When the spring track season opened a squad of more than fifty men entered the competition for places on the team. The first meet was with Connecticut, April 29th, on Alumni Field. The meet started with a nine-point handicap against the home team, due to the visiting team insisting upon entering the hammer throw, which is forbidden by our college authorities. Connecticut emerged victorious, 72 to 63, winning in the last minutes of the meet. The weak point of the home team seemed to be in the field events.

The second meet of the season was the Eastern Intercollegiates at Springfield, May 13. The team carried off tenth place, Sullivan, Friend, and MacCready each getting a fourth place for the team's three points.

At the New England Intercollegiates the team failed to place, although Sullivan, Acheson, and Stevenson showed up well in the Finals.

On May 26, the team brought in a close second at the Triangular meet with Vermont and New Hampshire at Durham. New Hampshire surpassed M. A. C. by only $4\frac{1}{2}$ points. Of the fourteen events the team won first place in five and was tied for first in two others. The old 220-yard dash record of 22 4-5 seconds, which was held by Capt. Sullivan, was taken at 22 3-5 seconds by Cahill '25. Acheson clipped 22 2-5 seconds from the 440 record time of 53 3-5 seconds held by F. W. Whitney '13. Barker reached the height of 5 ft. 7.65 in. in the high jump, breaking the record of

1924 INDEX

5 ft. 7.5 in. held by K. E. Gillette '08. The mile relay record of 3 min. 34.2-5 sec. made by the 1921 team in last year's meet was bettered by a team composed of Acheson Pierce, Sullivan, and MacCready, the time being 3 min. 28 sec.

The spring season closed with a victory over Tufts on Alumni Field June 3. Of the thirteen events M. A. C. secured first place in all but four. Macchia of Tufts beat Capt. Sullivan in the 220 by a scant inch, and "Lev" Woodworth in the low hurdles won by a final sprint ahead of Downs. "Don" MacCready took a first in the broad jump and ran away with an easy first in the 880. Lewandowski was the M. A. C. high scorer in the field events, taking first place in the discus and second in the shot put.

In the fall, Cross Country was again taken up after having been dropped for two years. The season was most successful, the team winning from Worcester P. I., Wesleyan, and Amherst, and placing tenth in the New England Intercollegiates. At Worcester the team won by a score of 30-26, November 4. Tanner gained first place by a final superb sprint and Capt. MacCready proved fresher than his opponent in placing third. Stevenson, one of the mainstays of the team, bidding fair to make a record for himself, suffered an injury to his foot, disabling him for the rest of the season. Wesleyan was the loser to M. A. C. harriers November 10 on the latter's course. On November 14 the team, with Tanner in the lead, raced to victory over Amherst on their course, the score being 32 to 25. In the New England Intercollegiate meet at Franklin Park November 18, the team placed tenth. Capt. MacCready and Tanner ran a very creditable race.

An interclass track meet was held November 25 in which the Freshmen placed first and the Juniors second. The meet served its purpose well, revealing much promising material for a successful future for track.

Records Broken 1922

In the triangular meet with New Hampshire and Vermont, four college records were broken: the 220-yard dash — 22 3-5 by Cahill '25

the 440-yard run — 51 1-5 by Acheson '22

the high jump — 5 ft. 7.65 in. by Barker '25

the mile relay — 3:28 by the 1922 team.

SCORES

In the Tufts meet: M. A. C. 78½ points; Opponents 38½

Connecticut meet: M. A. C. 63; Opponents 72

Triangular meet: M. A. C. 60; New Hampshire 64½ and Vermont 27½

In the Eastern States meet, M. A. C. scored three points.

1924 INDEX

FOOTBALL

The Season of 1922

THE middle of September found thirty-five men back early for football practice, ready to work harder than ever before to uphold Aggie's standards.

Our college has always "majored" in football; it has been the ambition of every athletic freshman to earn the coveted "M" before graduation. It is hard for outsiders to realize what our players must go through before each season and during the weeks between games in order to keep in condition and play a winning game. Often in the early season these men, burdened by heavy togs, struggle and sweat on hot, sultry days to the point of exhaustion, only to be urged on again and again by what seems to be their domineering taskmaster, the coach.

But earnest effort always has its reward, and on October seventh, we triumphed over Connecticut Aggie, in our first game, by a score of 13-6. Our opponents outweighed us twenty pounds to a man, and looked like very formidable opposition as they lined up in their brilliant orange jerseys, for the kick-off. The "Nutmeggers" were exceptionally anxious to win, for as yet they have never defeated us. The field was in poor condition, giving any possible advantage to the heavier team. The game was a hard-fought one throughout; many times the Aggie rooters (which, by the way, outnumbered those of the home team) were called to back their team to the limit.

Worcester Tech was our second victim, and proved to be fairly easy, giving us a chance to try out the worth of our substitute material. Worcester failed to score, and of our 23 points, Captain Grayson contributed 18. McGeoch showed up well in this game, and "Cap" showed his old-time form by shaking in some pretty forward passes. The game showed the results of the long workouts that the men had been through, and proved that their condition was such as to carry them through a strenuous season.

For the first time in over twenty years the Aggie eleven defeated Amherst by the close margin of 10-6. It was the first classic of its kind between the two institutions to be held on Alumni Field, and drew the largest crowd that has ever witnessed a football contest at this college. It was a hard, clean game from start to

1924 INDEX

finish with both sides feeling as though their champions would be victorious. During the first half the ball surged back and forth from one zone to another, neither seeming to have an outstanding advantage. The second half started with a brilliant lateral pass, on the kick-off, from Beal to Grayson, who made a spectacular run of forty yards. This proved to be the turning point, and it seemed from then on as though nothing could stop the Aggie team. The last period was one never to be forgotten. Amherst was leading 6-3, and it was only through wonderful team work, and the remarkable broken field running of Grayson, that finally reversed the score, to make Aggie the victor.

The most brilliant and hardest fought game of the season was won from New Hampshire State by the close margin of 12-10. Aggie still held the memory of an overwhelming defeat handed them by the "Granite Staters" on the previous year, and came back at their rivals with a will to win which could not be overcome. New Hampshire held the big end of the score for the first half, and it was only that bulldog fighting spirit, so characteristic of all Aggie teams, that enabled our "Little Giants" to push over another touchdown.

It began to look as though Aggie was going to have a record of all wins after we had defeated New Hampshire, but Bates, the Maine Champions, upset the dope by handing us our first defeat, 6-0. Bates' superior forward passing game, and many costly fumbles on our part were responsible for the outcome.

Our fifth victory was gained at the expense of Stevens, the game being played at Hoboken before a large body of Alumni and students who made the trip by trucks and autos. Although Stevens had not won a game up to that time, they put up a good fight, forcing Aggie to give her best. Touchdowns were made in the second and fourth periods, by McGeoch and Barrows, making the score 12-0. One of the interesting side-lights to the game was the Alumni Banquet, held at "Beefsteak Charlie's," to which all the football men were invited.

For the past three years Aggie has been victorious over Tufts in their annual contest, which is always marked by keen rivalry. This season the "Jumbos" reversed the decision by winning by the margin of one field goal, 9-6. From start to finish the outcome was questionable, both teams showing a brand of football that was exceptional. The plays were fast and well executed, the tackling was hard, and the tactics strenuous. Tufts seemed to have the edge on broken field running, getting away some long gains which counted as factors in our defeat. The game was exceptionally well attended by the Alumni and their friends who live in the vicinity of Boston. The student body, accompanied by the band, was there "en masse," going by special train and autos.

The last game of the season ended in a one-sided defeat at the hands of the Michigan Aggies, by the score of 45-0. This was the first intersectional game in the history of the college, with a team that was much our superior. The Michigan eleven had a fast overhead game, broken field running, and a style of tactics which were too much for the New Englanders.

1924 INDEX

The season cannot be called anything but successful, for of the eight games, five are wins including two of our most worthy rivals, Amherst and New Hampshire.

The 1922 Schedule

HOCKEY

Season of 1923

IN spite of the fact that the 1923 hockey team did not have a whirlwind season, a creditable record was made. Of the nine games played, three were victories, two of them over Cornell and West Point, the two biggest games of the season, and the other over the American School of Osteopathy; two games resulted in ties, one with Williams and the other with Amherst, after fast playing of six overtime periods in each case; and four losses were handed to the team to the credit of Boston University, Dartmouth, Yale, and Amherst in the return game. Considering the two big victories over Cornell and the Army, and the two hard fought games resulting in tie scores, the season was far from discouraging.

The team was coached by "Hubba" Collins, last year's star on the ice, and the performance of the season was characterized by "Hubba's" aggressiveness which he instilled in the members of the team. Captain Gordon and "Shorty" Hodsdon were the only veterans of last year on the team.

The game with Boston University was the opener of the season, being played in the Boston Arena. The Aggies were defeated, this being their first contest of the season. The individual starrng of the Boston University men proved too much for the teamwork of the visitors, and their familiarity with artificial ice was a valuable asset to them in winning their victory. The Aggie team learned much by their experience in this game that was of value to them in later contests.

The next contest was with Williams College at Pittsfield. The team more than made up for the defeat of the previous week when they held the fast Williams team to a tie score, 2-2, in one of the fastest and longest games of the season. At the end of six overtime periods with neither team able to score, the game was called. Gordon and Lamb proved hard men for their opponents to deal with. The goal tending of both teams was especially good.

1924 INDEX

The second tie game came the same week when the team battled to a 1-1 score on the home rink with Amherst on Alumni Day, January 20. Both teams displayed a fast brand of hockey and being evenly matched, the game proved to be a great treat for the alumni spectators. As in the Williams game six overtime periods failed to produce any more scoring. The lone score of both teams resulted from scrimmages in front of the goal, Whitaker poking in the Aggie's tally.

The first team to succumb to the Aggie aggregation was that of the American School of Osteopathy from Missouri, which stopped on the campus on a tour of colleges of the East. The score was 1-0. The game was well played considering the poor condition of the ice. Captain Gordon starred for the home team, caging the only tally of the game.

The real ability of the team was yet to be seen, they had the biggest games ahead of them. The first of these was the game with Cornell which was a whirlwind from the time the puck was first dropped on the ice until the last whistle blew, which left the Aggies in the lead by a score of 3-2. The team's victory was due to superior passing and better team work. Captain Gordon was the star of the game. He kept the opponents constantly guessing and his skillful handling of the puck was responsible for the team's three points.

With two victories, two ties, and one defeat to the team's credit, the future did not appear so dull, until the Dartmouth aggregation was encountered. The Green sextet kept their string of wins unbroken by conquering the Aggies, 5-1. Although the visitors were outclassed by the Green team it was due to Alger's work at goal that the score was kept down.

The return game with the Sabrinas on their rink proved disastrous for the Aggie sextet, Amherst winning 3-1. Goldsmith was playing in good form and caged the puck for the Aggies' single score by a pretty play from the left center of the rink.

Tough as this was for the Aggie team, it was overshadowed by the game with West Point the following Saturday when the Army went down to defeat to the score of 2-1. The situation looked bad to the team as they went to take on the cadets. The week before Dartmouth had beaten the Aggie team and the following Wednesday the Army had defeated the Green team, so all indications pointed to a hard contest. Although the contest was hard the Aggies shone throughout the game. Greater endurance seemed to be the big factor responsible for the team's success in the game. Gordon and Goldsmith hit a pace that the Cadets found difficult to keep up with. Gordon was supreme in the second period, while Goldsmith brought in the winning tally in the third period. The last game of the season was with Yale. In spite of the hard fight put up by the Aggies, Yale arranged the defeat of last year by winning 4-1.

Captain "Doc" Gordon was the outstanding individual star of the team and he proved himself well deserving of the honor of captaincy. On the ice he was fast and was very able in carrying the puck down the ice. His skillful shooting netted several tallies for the team and pulled them through many doubtful situations.

1924 INDEX

"Shorty" Hodsdon, the only other veteran of last year's team, kept up a good pace all season. Goldsmith, Lamb and Whitaker showed up very well for their first year of puck chasing. "Mase" Alger came out for the team for the first time this year and played the position of goal tender throughout the season. His ability in this position kept down the score in many of the hard games.

1923 Schedule

BABM BL

The Season of 1923

ONCE more an Aggie basketball team looks back on a successful season. With the timekeeper's pistol shot closing the game with Tufts on March 3, M. A. C. had come out on the right end of the score five times, and had been beaten only three times, the latter always on strange floors and under unfamiliar conditions.

The first game started auspiciously. Eddie Bike, one of last year's veterans who had been declared ineligible early in the week, was notified the night before the game that some mistake had been made in his records, and contributed largely to the defeat of Middlebury, 32-14. The game was marked by fast playing, and, although the team from Vermont tried their hardest and were ably captained, they at no time menaced the home team.

Northeastern was the next victim to the tune of 42-18. Capt. Marshman starred, scoring himself as many points as the University team. However, our whole team was in fine form and run up such a score that before the end of the game the second team was put in for a little while for practice. Before the close of the first half, Tumey wrenched his knee, but was able to finish the game.

Tufts was helped to a 19-10 victory at Medford by an impenetrable defence, good guarding, and a number of long tries from the far end of the floor, some of which scored. Ferranti and Bike alone scored one basket apiece, and the former did exceptionally well in sinking fouls, having six to his credit.

Aggie again ran into hard luck when we were nosed out by Wesleyan at Middletown by a one-point margin, 18-17. The game was fast throughout and each team made the same number of floor baskets, one from the foul line proving fatal to M. A. C. A rally at the end of the game alone saved the Nutmeggers from defeat. Barrows was high scorer, making six points from the floor. Marshman made four, Bike and Ferranti two each, and the latter added three points on fouls.

The team lost another close game when Harvard rallied at the last minute and came through, 23-20. Bike and Barrows starred in the game, which was fast

1924 INDEX

throughout and was especially notable because of the strong defense exhibited by our team. Ferranti scored twice as many fouls as his opponent.

Worcester Polytech was ahead throughout the game on February 7th. A last-minute rally threatened to put us in the lead, but it came too late. Bike was high scorer from the floor and Barrows scored four times on fouls.

From this time to the end of the season, the Maroon and White was never headed and the team easily kept ahead of Trinity at Hartford in a fast game ending in 26-15 on February 13. Capt. Marshman sank some long shots and was Aggie's high man.

Rhode Island went back home on the small end of a 24-16 score. The game was marked by whirlwind attacks and long shots, most of which went wide, however. Only in the second half did M. A. C. head the visitors. Marshman was a big factor in the victory and Bike and Hale kept the Rhode Island score down.

Capt. Marshman and Eddie Bike from the floor and Barrows at the foul line scored 33 points to Hamilton's 17. The game was ragged and both sides missed many shots.

The team avenged their defeat at the hands of Tufts when the latter came to the Drill Hall on March 3. Poor shooting marred the game, but the first period was exciting because of the fast and close playing which ended 5-6 in favor of the visitors. Marshman was knocked unconscious in this period, but finished the game in his usual fine form and his outjumping of the opposing center gave us the ball many times and materially helped towards the victory. Samuels did especially well and scored four baskets from the floor. The game ended 23-11.

In spite of the pessimistic prophecies at the beginning of the season because of the loss of last year's men through graduation, the team came through and upheld the reputation of Aggetts as good basketball players. The team worked so well as a unit that no one player can be picked out as a star. Capt. Marshman's consistent outjumping of the opposing centers gave Aggie the advantage often. Bike's eagle eye for the basket has often given us the necessary lead and his close guarding has held down many good forward's average. Hale has played a steady game as an anchor back which has greatly strengthened the team's defensive ability. Ferranti's and Barrows' speedy work at forward positions have netted the team many points. Their scoring from the foul line has also meant much. Samuels showed up well at the end of the season in spite of the limitations imposed upon him by his five feet five inches. Tumey's knee, hurt in football and then wrenched in one of the first games of the season, kept him out of the game for the remainder of the season, and he was greatly missed.

Next year's prospects point to a record-breaking team, with many of this year's men back and a fine freshman team to compete for positions. The "survival of the fittest" should result in an aggregation that will make the college proud to call it its own.

FRESHMAN 1926

FRESHMAN athletics for the past year have been very encouraging and promising. Much good material for future varsity teams was brought forth, especially for the diamond, gridiron, and basketball court.

The 1925 baseball team experienced a highly successful season under the coaching of "Red" Ball. The team won seven games out of ten. The biggest accomplishment of the Freshman nine was the 3-0 defeat handed to Deerfield Academy on their own grounds. Among the victims were: Springfield Tech, Arms Academy, Sacred Heart, Wilbraham and Northampton. The squad never consisted of more than thirteen men and because of this, Coach Ball deserves credit for keeping a winning team on the diamond.

The 1926 football team this fall was coached by "Hubba" Collins '22. The team opened the season with a win over the fast Northampton High eleven. Although the school team outweighed the freshmen, the latter displayed better ability and won easily. The Rosary High team proved too much for the yearlings, defeating them in their second game. The freshmen showed up creditably, fighting pluckily and steadily throughout the game. In the game with Deerfield neither was able to score; good playing characterized the work of both teams. The annual battle with the sophomores resulted in a scoreless tie. The game was played on a wet field and weak offense work was outstanding on both sides.

1926 produced some real good basketball players during their court season. The team is comparable to any of the teams of recent years, having been defeated only once in eight games. Showing good form in the opening game with Greenfield, they continued through the season, taking into camp among others, Hopkins, Deerfield and Smith academies, and Williston. Springfield High School of Commerce was their only superior. The last game of the season with Natick High was easy for the Gore coached yearlings, even with the absence of three of their first-string men from the line-up.

The freshman hockey team played two games with outside teams, one with Deerfield and the other with Williston. They lost to both of these schools. The numeral game with the sophomores resulted in a 1-1 tie. Another game was played later which the freshmen won, 4-3. Freshman hockey has not yet reached the standard of the baseball, football and basketball teams, but increased interest is apparent each year.

1924 INDEX

The Military

BACK in the days when King Arthur ruled, and knights used to sally forth on horseback for an afternoon's fighting, it was the natural thing to be a warrior — everybody wore boiler-plate suits and no one could vote until he had finished off at least three dragons.

The Military at M. A. C. bears the name of the Reserve Officers' Training Corps, and while the aim is not exactly to slay any material dragons, it nevertheless is symbolic of the best type of physical fitness and alertness, and stands for the protection of the nation and its rights.

Under the Land Grant Act which required two years of military training of all students enrolled in the college, all Freshmen and Sophomores receive elementary instruction in Military Science. This consists for the most part of drill, to acquaint the student with the need and purpose of discipline, and later in the handling of men. Tactical problems are also used, first being taken up in the lecture room and later on the campus, with actual operations of men and horses.

These men are commanded on the field by cadet officers drawn from the two upper classes of those men electing military for the latter half of their college career. These men are given advanced instruction corresponding closely with that received by men in the United States Military Academy, although equipment and time are not available as they are at West Point.

M. A. C. is indeed fortunate in having a Cavalry Unit, and it was only after the college received a high rating that the cavalry was assigned to this place. At the present time, some fifty-two horses comprise the string. Among these are ten or more very good polo ponies, and the Polo Team has done very well in the last two years, and plans for a regular competitive schedule are being formed.

Juniors and Seniors are allowed the privilege of taking their lady friends to ride, and in the fall and spring the privilege is naturally made the most of.

Of course riding instruction runs through the whole four years, and starting with "bull-ring" work, gradually works up to cross-country riding with hurdling and jumping.

Every year on High School Day a Gymkhana is held, and stunts and fancy riding are featured.

Rifle and pistol teams have in the past made excellent records, once winning the national championship, and placing third last year in the Rifle Team competition.

Men taking the full course of four years are eligible for a reserve commission, or they can take a special examination for the regular army. The summer between Junior and Senior years is partly taken up by six weeks' training at camp.

1924 INDEX

This camp was held two years ago at Fort Ethan Allen, Burlington, Vermont, in the midst of the mountains and beside beautiful Lake Champlain. Last year it was held at Camp Devens, and the coming camp site is as yet undecided. Men who have attended these camps have had the best vacation possible, and with no expense, for the regular commutation of rations that is paid to all Junior and Senior cadets prevails throughout the summer.

At present Major Kobbe is Commandant, and is assisted by Captains Hughes, Brady and Shufelt. Sergeants Lee and Warren, Cronk and Flynn are in the office and help run the routine work, with Sergeant Warren instructing also.

Plans for next year include an exhibition of riding, somewhere away from the college, and for several overnight camps to be made after a day's march. This will give the under-classmen an opportunity to see how real military operations are carried out, and the upper classmen an opportunity to take complete command and learn to use their own initiative.

Problems in patrolling and attacking that have been worked out on the sand table this winter will be solved with actual conditions prevailing.

Next year there will be used a distinctive cadet uniform, and the appearance of the unit at Commencement Review will be most excellent.

The Reserve Officers' Training Corps at M. A. C. has as its purpose, as have all the units throughout the country, to train men so that if the nation has sudden need of them to command her soldiers who respond in answer to the emergency call, they can be ready with a working knowledge of tactics, and with the ability to handle men.

Even if the nation should never again have need of officers, the four years which it is possible to spend in the military up here will make a man physically fit, self-reliant, quick-thinking, and courageous. In addition to these, the work, if it appeals to the student, is able to furnish him the year 'round with a subject that is both fascinating and certainly instructive.

It is no mistake to take the whole four years of military instruction, and nothing but the best knowledge, the best friendships, and the best good to a man's character can come of it.

The Musical Clubs 1922-1923

THE combined musical clubs form one of the most important academic organizations here at Aggie both in their benefit to the individual and to the college. Many men in the Glee Club have developed considerable musical ability under the capable coaching of Worthley, while those in the orchestra have had a wide experience in playing for the many dances which have been held after most of the concerts. The social opportunities of those men taking the trips are not the least of the benefits received. Many times the members stay at private homes where they have a chance to show their college manners and put in a good word for Aggie. Needless to say the clubs form a very brilliant medium for advertising, and a club which has been so active and of such high calibre as this year's is sure to influence the public in our favor.

This year has been the most successful which the clubs have enjoyed since the pre-war days, both in respect to the quality of entertainment and number of

1924 INDEX

concerts given. The increasing popularity of the Glee Club led many men to try for positions in the organization, and for this reason a wealth of excellent material was found. The orchestra was built around the senior quintet, and has never failed to please its audiences with well rendered classical selections.

The first concerts at Conway and Hatfield opened the season earlier than usual and showed fine possibilities for the later trips. With another month of practice the clubs were in top-notch form for the annual Christmas trip. Two concerts were given at that time, one at the Congregational Church, Melrose Highlands; the other at the Copley Plaza Hotel in Boston. This latter is the annual entertainment managed by the Boston Alumni Association. Owing to the bad weather which hampered transportation these concerts were only lightly attended. Nevertheless, the audiences were very appreciative and both concerts proved well worth while.

An exceptionally large number of concerts were given the second term. Those coming in January were all in the western part of the state and included Hadley, Northampton, Shelburne Falls, and one at Stockbridge Hall on Mid-Winter Alumni

1924 INDEX

Day. Of these the entertainment furnished at Northampton stands out most prominently. That concert was given at the Elks Lodge on ladies' night. Several extra men added to the regular orchestra furnished exceptionally fine music for the dance. The clubs made such a good impression that they were asked to perform again at a later date at Northampton High School under the auspices of the Teachers' Association.

Without doubt the most notable concerts of the season were given with the two state normal schools at Framingham and Worcester. In both cases the occasions were joint concerts of the men's and women's clubs, a feature which added materially to the interest of the program. The affairs were very well attended and were followed by dancing.

At this time the clubs are looking forward to their joint concert with Mt. Holyoke College, and several more trips which are in the making. It is hoped that the interest may be held throughout the year so that next year the clubs will be ready for a bigger season than ever.

Our review would not be complete without some mention of the special acts which furnished life and variety to the program. The organization has been peculiarly handicapped in their selection of a satisfactory quartet, but it is expected that "Hank" Darling, "Jim" Williams, "Roy" Norcross, and "Russ" Noyes should make good in the remaining concerts and get a good start for next year. Erle Weatherwax's rendition of "The Cohens at the Movies" and pantomimes never failed to make a hit. His interpretation of the modern girl is unbeatable. "Bob" Fuller showed unusual talent in his clarinet solos. The selections were classical in nature, brilliant, and exceedingly well executed. He was ably accompanied by Harris on the piano. The vocal solos by Roy Norcross showed real ability on the part of the performer, and were always well received. Much credit is due the leaders and manager of the clubs, "Irv" Slade, "Dick" Wendell, and "Tom" Snow. A great deal of the responsibility fell on their shoulders, and they have sustained the high standards of Aggie by fulfilling their duties in a creditable manner.

The Senior Quintet

PERHAPS in all the history of M. A. C. no one musical organization has done so much for the College music, played together so long, nor set so high a standard, as the quintet of the class of 1923. It was really a courageous undertaking for a group of sophomores to plan and carry out successfully from the very beginning, so significant an enterprise.

So firmly established and competent had this organization become, that in 1921 at the Fiftieth Anniversary of the graduation from the College of its first class, the music on the more important occasions, including Commencement Day, was furnished by the quintet. It has also rendered acceptable service at subsequent Commencement exercises, for Sunday chapel, and for various special occasions. Elsewhere than at the College, the quintet has been in demand for concerts and has furnished music for various weddings, receptions, banquets, and other affairs where chamber music has been required.

The quintet is composed of members of the class of 1923 as follows:

Richard G. Wendell, *pianist and leader*. — Wendell has done very little solo work but has been the accompanist not only for the quintet but also for the College Orchestra and the Glee Club. In addition to his work with the quintet, he has served as leader of the College Orchestra and as College Organist.

Donald G. Nowers, *'cello* — Nowers has played the 'cello for many years as a member of various organizations, including the Philharmonic Orchestra in Salem and Lynn, Mass., and on the U. S. S. Minnesota where he served during the World War. He has played in the M. A. C. Orchestra and has done a good deal of solo work in addition to membership in this organization.

Harry C. Norcross, *violin*. — Norcross has played the violin for seventeen years and has been a member of the Baer Orchestra and the Technical High School Orchestra of Springfield; he has also played in the M. A. C. Orchestra.

Fred G. Sears, *violin*. — Sears has played the violin many years and has been a member of an orchestra in Dalton, Mass., and of the M. A. C. Orchestra.

Robert D. Fuller, *clarinet*. — Fuller has played the clarinet in the Woburn High School Orchestra, the Apollo Orchestra, and in the Reading, Mass., Brass Band where he became clarinet soloist. For four years he has contributed to the success of the M. A. C. Orchestra, has done considerable solo work in Amherst and vicinity, and this year has been leader of the M. A. C. band.

The Roister Doisters

THERE is no dramatic organization in the country which is happier in its choice of name than the Roister Doisters. The M. A. C. undergraduate dramatic society takes its name very appropriately from "Ralph Roister Doister," a Pre-Shakesperean morality play. It is considered the first English comedy, having been produced fifteen years before the birth of Shakespeare.

Undergraduate dramatics were first organized in 1910 as the M. A. C. Dramatic Society. This society produced one play, "The Private Secretary", in Amherst, Montague, and Ware. On October 15, 1912, a constitution was adopted which created the society of the Roister Doisters, and George Zabriskie Jr., '12, was elected the first president.

Under the auspices of this infant organization, one play each year was given until the season of 1914 when both "Mr. Kelley from Kalamazoo" and "The Comedy of Errors" were produced. In 1915 a remarkable achievement was attained in the production of an excellent original musical comedy, "Pluto's Daughter."

During the participation of the U. S. in the war, the society was dormant. It reawakened in 1919 with the presentation of "Officer 666" and "Are You a Mason?". The 1920 season was very normal with "Nothing But the Truth" and "The Witching Hour" as features. The 1921 season saw produced Sheridan's "School for Scandal" and the successful and much featured Semi-centennial Celebration historical play, "John Epps," which was written by Professor Frank Prentice Rand, the society's present faculty manager and coach.

Attention must be called here to one great step of progress which the society has made in recent years. In "The Witching Hour," the 1920 Commencement Show, girls were first introduced into the cast. By this step it has been possible to leave the realm of broad farce, and attempt worth-while comedies, and even more serious work.

The recent season, 1921-22, has been one of increasing activity, under the leadership of R. F. Martin and G. E. Linskog. The Prom Show was Booth

1924 INDEX

Tarkington's comedy hit, "Clarence." From the 1912 season, when the newly created society toured New York and New Jersey for eight engagements with "What Happened to Jones," up to the 1922 season the organization had been no farther from home than Northampton. With the cooperation of T. H. Reuman '18, the 1922 Prom Show, "Clarence," was presented in Stamford, Connecticut, on April 22. On May 8, it was played in Deerfield, Mass., and the proceeds were used to found a scholarship for Deerfield Academy boys attending M. A. C.

The Aggie Revue, which is the annual student vaudeville, was first established by the Roister Doisters in February 1921, as an adjunct to the Fraternity vaudeville. The Aggie Revue has now superseded the latter; the second annual Aggie Revue on December 17, 1921, met with great popular favor. It was organized along class lines, each class, the faculty, and the two-year presenting one act, all under the general supervision of the Roister Doisters.

The 1922 Commencement Play was George Bernard Shaw's social satire, "You Never Can Tell," a type of play which required clever and painstaking work in order to achieve the success which was unanimously accorded it. In this production, the quality of the stage settings was perhaps unexcelled by any past production.

Requirements for membership in the Roister Doisters have varied since its beginning. To quote Article III of the original constitution: "The membership shall consist of those active four-year students who have, first, a desire for membership, and second, ability in dramatics." These rather vague specifications have been modified to include in membership any regular student, scholastically eligible, who has participated in a regular Roister Doister production. The casts of the various plays are selected by a process of eliminatory tryouts which are open to the entire student body.

The society is emphatically self-supporting. It draws no assistance whatever from the student taxes for Academic Activities. Its entire resources accrue from the sale of tickets to performances and guarantees for trips. Its financial condition in the past has not always been ideal. The following extracts from minutes of an early meeting illustrate the point. "Manager . . . reports a singular absence of money in the treasury, The manager hopes to extort \$2 from each member, and where prospects seem hopeless, he is ably backed up to prosecute such individuals by the constitution." As a closing note is appended the naive platitude, "Ignorance of the law is no excuse."

1924 INDEX

The days of such difficulties are past, we hope forever. Last year the society furnished the Academics Office in the new Memorial Building with a complete set of appropriate furniture, and also purchased a handsome massive walnut table for the main lounging room of the same building.

An enumeration of the Roister Doister activities would not be complete without mentioning theater parties when a worth while attraction presents itself in Northampton, a new society emblem shortly to be presented to each member, and dramatic readings. Early in October, 1922, the Roister Doisters presented Hortense Nielsen in a dramatic reading of Ibsen's "The Doll's House," to which were invited the student body and the public at large.

The Roister Doisters have successfully lived through a past filled with many trying experiences, have achieved progress and are increasingly active at present, and bid fair to carry on their work of dramatic appreciation even more widely and successfully in the future.

Debating

DEBATING, like the other activities on the campus, was quite disorganized during the war period. Although it has lagged behind other types of activities in post-war reorganization, it has, by far, led in the recovery of forensic activities. The status of debating here at present is practically that of pre-war M. A. C. debating.

The annual Freshman-Sophomore debate for 1921-1922 was of especial interest to the student body on account of its subject:— Resolved, That the present disciplinary relations between the Freshman and Sophomore classes are detrimental to College spirit at M. A. C. The debate was very spirited and aroused much discussion in the student body; but what is more from the standpoint of debating status, this debate stirred up much interest in debating per se.

During the war period and for a few years afterward, the Freshman-Sophomore debate was the only debate held on the campus. In the spring of 1921 a dual debate was held with Springfield Y. M. C. A. College. With the interest in debating growing, the need for a more permanent organization of Varsity debating was felt and it was met with the establishment of the M. C. R. I. Debating League in 1922, largely through the work of Krasker '22, who was manager at that time.

The first debate in this league was held before a large audience in Memorial Hall at M. A. C. The team at home won a unanimous decision over the visiting Rhode Island S. C. team. The M. A. C. travelling team lost by a 2 to 1 decision to Connecticut Agricultural College. The M. C. R. I. Debating League is constituted as a permanent organization and it provides for one triangular debate each year, so that M. A. C.'s debating interests are on a permanent footing for future years.

M. A. C. was fortunate for the year 1922-23 in holding a single debate at Amherst with North Dakota Agricultural College. This team from the far West was taking a tour through the East, and M. A. C. was included in its schedule. A very large audience assembled in Memorial Hall. In the opinion of authorities this debate was the best ever held at M. A. C. The home team lost by a score of two-to-one.

During the last few years debating at M. A. C. has grown into prominence as an important Varsity activity. Debating interest and ability is present in abundance in the under classes, a place on a debating team is keenly competed for, and, in all, debating is tending to become of greater importance each year.

The College Newspaper

SOMETIME, if you are out on the Campus returning from the Abbey or elsewhere, at ten or eleven o'clock on Monday night, you may see a light in the southwest corner of Memorial Hall, and looking and listening, you may see backs bowed over high desks, and hear the click and pound of the tortured typewriters. This is the Massachusetts *Collegian*, your college paper, being assembled for its weekly publication.

Since 1909 the present form of the paper has been used, although as early as 1890 a student publication was circulated. Today the paper is approaching the best standards of collegiate newspaper work, and the experience gained on either the business or editorial staff is ample pay for the work done. The old joke comes to mind about the young man applying for work in a newspaper office, and when asked if he had any experience in newspaper work replied, "Yes, I was on the staff of my college paper." The editor replied, "Well, we won't hold that against you." This has always been a standard wheeze, yet today it is dead, for editors are asking for men with college newspaper training.

Recently the *Collegian* has instituted a new plan of operation, whereby department heads are chosen and are each responsible for one phase of college life. This results in more even distribution of work and better quality. Competition (for the board) is usually keen, and as both Freshmen and Sophomores are eligible, one class or another has a chance to show its worth during most of the year.

Every so often the student body takes it unto itself to run down the *Collegian*; to find fault with the contents and the arrangement. This is sometimes the fault of the student body itself, for oftentimes in the paper's career the total publishing force has consisted of two men. Competition is at times keen for positions on the board, yet sometimes the lack of men out for the board hinders the work of getting out the sheet.

But they do their best trying to interpret college life in its better aspect; trying to show the world that Aggie is a man's college, conducted for and by men; trying to make her name well respected among her foes and well believed among her sons and friends.

The College Comic

ONCE in a while — a once in two whiles, — a pointed and belled cap wags wagishly above an open mouth which releases to the world and to the student body a stream of printed matter which is known to the scrap-basket as the *Squib*.

The Aggie campus is one of the most humorous in New England not counting the students as comic and it is this display of wit and witticism which the *Squib* tries to collect twice or thrice a term and put in readable form. Prefacing the original humor is usually an editorial apologizing for the paper. Yet it needs no apology, for a paper which has risen in two years to a position on the Academic Activities Council and has in the past year had some of the best drawings of any New England College paper, is worthy to represent the college as its comic paper.

The Board's policy always has been to avoid the shady-charactered jokes, and to find its material in clean and wholesome humor. Much credit is due to the paper that can take a stand such as this when the majority of the college papers try to shock instead of amuse. While in former papers which have attempted to provide the college with a dictionary of humor, the personal element played a large part, to-day the paper while sometimes using local allusions, does not depend on names of college celebrities or their escapades or sayings to furnish "kick" to the jokes.

The illustrations have been spoken of before. Carroll Towne '23, and Russell Noyes '24, have been the main contributors in the art line, and it is the latter who will be the managing editor for 1923-24.

H. Erle Weatherwax '24, is to head the paper for the coming year, and will be aided by a staff of veterans which ought to make the paper better and better—every two months in every way.

So long as the *Squib* keeps to a good brand of Aggie Humor and does not depend too much on exchanges; so long as there is humor on the Aggie campus; so long as students can enjoy a little Frivolity, then the *Squib* will remain as a college institution.

May Aggie always admit that she is not all work, and tell the world that she can smile — through the *Squib*.

The College Bear Book

FOLLOWING the custom begun by the class of 1871 we also as members of the Junior class have published a year-book. Perhaps it would be of interest to the student body to learn something of what the Board does with the money given it, and why the INDEX rarely comes out even financially.

In the first place there is only about \$1300 which is collected as a student tax. This does not even pay the printer's bill, which is seldom below \$1400. This answers the student query of "where does our money go?"

When the newly elected Board discovers this fact each year it raises a query on its own part as to what they are to do about it. Their next discovery is that their bill for engraving must not exceed the money brought in from the advertising section; because this is the only source of income apart from the student tax. This sounds very well until they learn that the money from this source may vary from \$400 to \$800, and further, that they cannot by any means know until after January 1, the exact amount that will be available. With the students demanding their books early in the third term or sooner it is necessary that the complete outline of the book be ready before January 1, an impossibility, since the plan varies according to the amount of money that will be available. What the Board has to do is to guess at the amount of money it will have from its advertising and work on that as a basis. Then, since it is too late to alter the plan of the book after January 1, and the money does not appear as expected, the only thing that they can do to meet their printer's and engraver's contracts is to go ahead on the outline at hand with knowledge that the book will not break even financially. This is what has happened year after year and always will on the present basis.

What we suggest is that, if the student body really wants its yearbook, their tax for it be raised to make up a sum equal to that usually coming from advertising; and also a tax that will be commensurate with the cost per volume, which the tax never has pretended to be in past years.

CLASS ACTIVITIES

Our Freshman Banquet Scrap

MUCH like all freshman classes before us, we pessimistically, gleefully, mournfully or murderously discussed the coming scrap with '23 for many days before the fated evening of April 29, 1921. Some were pessimistic, thinking of the strong-arm men of the sophs, Grayson, Mohor, Tumey and Mudgett. Others were gleeful, but they were in a decided minority. Some were mournful, thinking of how slowly a black eye returns to normal color, and a few of our classmates, having been thrown in the pond on days too chilly for comfort, only wanted a chance to get their talons on their enemies. Our class meetings were largely attended and carefully guarded — a soph never stood a chance among the ventilators of Clark Hall when the best brains of '24 were keyed up to the point where ours stood. On the night before the battle, Field Marshal Myrick boldly brought forth his plan for a fight to the last ditch, to never give in while a man remained alive, to give no quarter and to expect the same. A number of impassioned speakers tore their hair, dramatically implored a bloody resistance to the mighty sophomores, and invariably concluded with a scathing indictment of the pusillanimous wretches who could think of leaving their classmates to die a horrible death on a gory field while they safely stayed at home in bed. Curious glances from the enemy all the long day of April 29th were variously interpreted, but with one conclusion: that our (new) (old) scheme of staying together and fighting in pairs had been overheard and that the jig was up.

With a firm resolve to sell our lives dearly we went to the Arena a little before 10 o'clock on the evening of the historic 29th. Our classmates without hats we had never seen, neither did we recognize them in the persons of these khaki-clad, collarless, frowzy raggamuffins who greeted each addition to their forces with a yell, calculated to strike terror to the hearts of '23, who sat or reclined with blood-thirsty glances on the seats of the Arena. Truly they looked imposing and, oh, so strong! Many were the resolves to give up chewing gum and cigarettes if only the addicted ones survived the night.

After much delay the president of the Senate began to call the role of the class, much as Marat must have called the list of names in the order in which their owners were to go to the guillotine. With swaggering steps but fear-chilled hearts we tumbled out of the Arena and, amid imploring entreaties to "close up" and to "stay together" we hiked for a favorable position on the heights above the cold storage plant, stopping en route for provisions which were issued to us by our classmates of the Abbey. With courage restored, we marched up the hill through

1924 INDEX

the wet grass and took our posts, elbow to elbow, and waited with beating hearts for the sophs. A remark to the effect that the latter would not be allowed to leave the Arena for a half-hour relieved the tension, until the chapel bell began its wild and mournful tolling, when we again became taut and ready. An hour slipped away, and it began to sprinkle, then to rain, then to pour. Our courage oozed with the falling rain, until scouts brought word that several chicken coops below our position afforded some shelter. The protection was found to be exactly "some;" from that night on we appreciated the feelings of sardines, if they have feelings. At any rate, we had none before the night was over; we put our muddy shoes in our roommate's face and we indelicately and vehemently objected to our best friend sitting on our stomach. Several false alarms disturbed the sleeping (?) mass at various times during the night, but at 6:30 came the final one, and up the hill we tore through the rain in order not to let our enemies "get above us." In huddled ranks we watched them come, much as Harold's warriors must have watched the advance of the Norman knights on Senlik hill. With a crash we met, for a long half-hour the battle raged, and we at last looked up to find that the mighty sophs were tied up or escaped. Mohor had fled through a swamp with a large assortment to slow his flight, but the remainder of the strong men of '23 were ignominiously loaded into a rickety cart and lined up in the Drill Hall until the close of the banquet season at 10 A.M., when we wrung out our clothes, scraped off the mud, and proceeded to the victory feast in Holyoke.

Use Snyder-Made Specialties

Snyder-Made
Sausage

The flavor is distilled into
the tender meats.

This is a digestible, health-
ful dish.

A local product.

Made entirely of choicest
cuts of Pure Pork.

Its excellence is uniform.

**Snyder Cured Hams and
Bacon — Smoked with
Corn Cobs**

A high-grade New Eng-
land product.

"Snyder Cure" means *mild* cure.

Mildly cured Hams and Bacon require special care in
preparation, and the manufacturer stands a shrinkage loss,
but the results are well worth the extra trouble. It is the only
way to preserve the tenderness of the meat, avoiding the ex-
cessively salt taste.

If you prefer quality to quantity, try our Snyder Cure
Hams and Bacon.

DAIRY FARMS

"Jahn & Ollier Again"

ACHIEVEMENT

The goal of every ambitious man and firm is typified in the rapid growth of the *Jahn & Ollier Engraving Company*—the universal esteem in which their art and plates are held by the large national advertisers—and the enviable reputation for prompt deliveries which they enjoy.

The mission of all advertising illustrations is to produce sales and the growth of this firm has been measured by the success its customers have had in obtaining new business thru using "J&O picture salesmen."

Thirty thousand square feet of floor space (4 floors) and over two hundred and fifty skilled employees are required to meet the constant demand for "J&O" commercial photographs, art, color process plates and photo engraving (one complete floor is devoted to color process work).

Intelligent supervision of all work by many skillful office service men eliminates your troubles. *Sales service men sent everywhere.*
